

News/Update: July 5th, 2025

This message is to announce an important update, comment on a few relatively recent news stories, and deliver a message.

I'm currently working on an important update to *Steve's Top-Secret Notebook*, which I hope to finish within 2 weeks (God willing). In the mean time, a few news stories occurred which I hoped to address later, but a recent protest here in Mexico required that I address the stories now.

If recollection serves, May 28th, 2025, I first revealed God's rescheduled December 7th, 2025, Destruction Day, hidden in Nuestra Señora de Guadalupe (see *The Destruction Date* or the first 8 pages of *Revelation 2: The Solutions*). This report is incontestable and should reasonably terrify anyone living in the United States –or the West, Israel or Japan.

June 6th, 2025, US President Donald Trump authorized ICE raids and arrests, which triggered huge protests in California, and soon spread to other states. Amid the raids and protests, Trump made some comments about *drug trafficker exchange* with Mexico.

June 13th, 2025, Israel bombed Iran's nuclear research facilities.

June 23rd, 2025 (if memory serves), the US bombed Iran's nuclear facilities.

June 26th, 2025, a high level Trump administrator placed Mexico on a list of enemies of the United States (along with China, Russia and Iran).

July 4th, 2025, an odd protest occurred in Mexico –a protest against “gentrification”. The protesters (who looked fairly middle-classed) carried signs with the word “Gentrification”. Many signs also contained the words “ex-pats” –targeting Americans who live in Mexico. This was all suspicious because, in 1.5 years in Mexico, I've never a protests against “gentrification”. In fact, I had never seen the words “gentrification” or “ex-pats” on the news in Mexico. According to my dictionary, “gentrification” is not a word in Spanish. The Spanish word for *gentrification* is “aburguesamiento.” Yet the US co-owned Mexican news repeatedly used the word *gentrification* in their story headlines. Mexican citizens should be aware that private *news* companies dictate social opinion by covering some protests but not others.

So, here's what I believe is happening... The story of God's coming destruction of the US is growing, and Trump knows what is coming on December 7th, 2025. The June ICE raids were an angry distraction. The *drug trafficker exchange* idea was Trump displaying his willingness to falsely allege that I am involved with drugs, to trade me for a Mexican drug offender imprisoned in the US (I've never bought, sold or trafficked drugs –period). The attacks on Iran were a desperate and futile effort to stop what is coming. The “gentrification” and “ex-pat” stories may have been legitimate –but they also may have been a US messaging effort, to cajole me into returning to the US.

Why?

Because (1) Trump and Western leaders are terrified, and hope, if I return to the US, I can somehow call off God's One Hour War, or (2) they hope to use me as a human shield.

This idea is cowardly and absurd. God would never choose a cowardly servant/messenger.

So, concerning the idea of me returning to the US to be Trump's *human shield*, my reply is to **China** and **Russia**: If I return to the US, voluntarily or by deportation, etc, and if I am in the US on Destruction Day (December 7th, 2025), at the hour of God's One Hour War, please drop **extra** bombs on the cities and/or states where I am most apt to be (Washington DC, Florida...).
