

MAY-NTENANCE MODE: ENGAGED

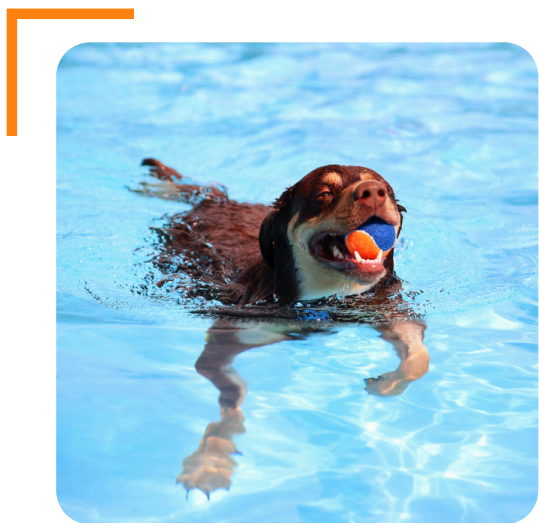

Service Expectations during Inclement Weather:

Rain/light weather: We still service;
chems + brushing as possible.

Vacuuming may be limited.

Severe weather (lightning, heavy rain,
flooding): For safety, visits may be
postponed and rescheduled if able.

If a return isn't possible, we'll balance
chemicals at your next scheduled visit.

Romans 8:28

DID YOU KNOW

One dog splash can load your water like
a crowd: from ~3 people on the low end
to ~50 people on the high end,
depending on the dog (size/fur) and
conditions. **Why?** Fur traps dirt, dander,
pollen, oils—and even trace fecal
matter—so chlorine gets used up
faster.
