ATS

Some Global Clients

ATS Difference!

We are project finance readiness consultants committed to supporting clients in their journey to secure project financing from a diverse range of sources within our network and beyond. Our primary mission is to ensure that every project meets the stringent requirements and standards essential for attracting financing. We guide the projects to achieve a shovel-ready and financing-ready status, preparing them to qualify for their readiness.

Our dedicated team of industry experts offers comprehensive assistance to clients, guiding them through the intricate process of project preparation and positioning them for successful financing outcomes. Our services do not encompass financial intermediation or any related investment services restricted by U.S. laws and regulations.

We are not broker-dealers handling securities transactions.

ATS Difference!

- More than 160 Nations.
- We work directly with global exclusive sources.
- Project Finance Readiness Consulting solutions available.
- More than 30 years serving people with growth and development.
- We are global expert consultants in project assessment and due diligence.
- Aligning extensive and executable relationships within the internal ATS team.
- We have an elite assessment team, operation team, risk team, and technical team.
- We value connections, giving and serving the welfare and ethical conduct of people.
- Our team has a global presence possessing extensive knowledge, in many industries.
