# ATS Client Outcomes

- After reviewing the first 2 full months statements for June and July of 2017, we calculated their savings for those two months to be \$9,583 which is due to their sales volume being a lot higher in these summer months.
- Even though our original analysis showed \$26,924 in annual savings, we are expecting the actual savings to exceed \$40,000 based on the higher volumes during the summer months.
