

What are Some Better Presentation Tips? (7-12)

Ten Presentation Style Tips

1. Speak loud enough to be heard.
2. Involve each person (your prospect and/or client) with eye-to-eye contact, gestures, nodding your head up and down, etc.
3. Keep your sentences short and simple.
4. Try not to speak with a monotone voice – add some tone and a little feeling.
5. Use normal hand gestures.
6. Avoid passive constructions (Ex: you “may”).
7. Use your normal speaking vocabulary.
8. Read your presentation aloud to check grammar and style.
9. Make sure you have enough time for a proper presentation (do not rush).
10. Do not overdo repetition to emphasize a critical point.
