Earners of the CompTIA Security+ GFL understand network and data security principles that would help them build a general awareness of security threats and to understand basic principles of securing a network.

CompTIA Secure Infrastructure Specialist – CSIS Stackable Certification

Issued by: CompTIA

Issued to: Matthew J Matthey Matthew

Issued on: 2 December 2008

Description

Earners of the CompTIA Secure Infrastructure Specialist (CSIS) certification have the knowledge and skill required to support hardware and software systems. These secure infrastructure specialists will also be able to protect an organization's assets from internal and external threats.

CompTIA Project+ Certification

Issued by: CompTIA

Issued to: Matthew J Matthey Matthew

Issued on: 2 May 2009

Description

Earners of the CompTIA Project+ certification understand the basic concepts to successfully manage small- to medium-sized projects. These business professionals have demonstrated the

knowledge and skills required to manage a project life cycle, ensure proper communication, manage resources and stakeholders and maintain project documentation.

CompTIA A+ Certification (ce enrollment)

Issued by: CompTIA

Issued to: Matthew J Matthey Matthew

Issued on: 7 November 2011

Expires on: 7 November 2014

Description

CompTIA A+ earners who certified between January 1993 and December 31, 2010, have an A+ considered good-for-life (GFL). It does not expire and does not have CE requirements. Earners of the CompTIA A+ certification have validated skills in hardware repair and configuration, PC and peripheral troubleshooting, Windows operating system administration, and user support.

CompTIA Network+ Certification (ce enrollment)

Issued by: CompTIA

Issued to: Matthew J Matthey Matthew

Issued on: 7 November 2011

Expires on: 7 November 2014

Description

CompTIA Network+ earners who certified prior to January 1, 2011 have a Network+ considered good-for-life (GFL). It does not expire and does not have CE requirements. Earners of the CompTIA Network+ certification have the skills needed to troubleshoot, configure, and manage enterprise networks.

CompTIA Security+ Certification (ce enrollment)

Issued by: CompTIA

Issued to: Matthew J Matthey Matthew

Issued on: 7 November 2011

Expires on: 7 November 2014

Description

CompTIA Security+ earners who certified prior to January 1, 2011, have a Security+ considered good-for-life (GFL). It does not expire and does not have CE requirements. Earners of the CompTIA Security+ GFL understand network and data security principles that would help them build a general awareness of security threats and to understand basic principles of securing a network.

CompTIA A+ ce Certification

Issued by: CompTIA

Issued to: Matthew J Matthey Matthew

Issued on: 7 November 2011

Expires on: 7 November 2014

Description

Earners of the CompTIA A+ certification are proven problem solvers who are able to perform critical IT support tasks including device configuration, data backup and recovery, and operating system configuration. CompTIA A+ certified professionals have demonstrated baseline security skills for IT support roles and are able to detect and remove malware, address privacy concerns, and troubleshoot core service challenges.

CompTIA Network+ ce Certification

Issued by: CompTIA

Issued to: Matthew J Matthey Matthew

Issued on: 7 November 2011

Expires on: 7 November 2014

Description

Earners of the CompTIA Network+ certification have the skills needed to troubleshoot, configure, and manage wired and wireless networks found in companies around the world. CompTIA Network+ professionals have demonstrated the ability to design and implement functional networks, configure, manage, and maintain essential network devices, implement network security, and troubleshoot network problems.

## CompTIA Security+ ce Certification

Issued to: Matthew J Matthey Matthew

Issued on: 7 November 2011

Expires on: 7 November 2014

Description

Earners of the CompTIA Security+ certification have the knowledge and skills necessary to perform core security functions required of any cybersecurity role. CompTIA Security+ professionals know how to identify and address potential threats, attacks and vulnerabilities and they have established techniques in risk management, risk mitigation, threat management and intrusion detection.

MTA: Networking Fundamentals - Certified 2016

Issued by: Microsoft

Issued to: MATTHEW MATTHEY

Issued on: 17 October 2012

Description

Earners of the MTA: Networking Fundamentals certification have demonstrated knowledge of fundamental networking concepts. The MTA program provides an appropriate entry point to a future career in technology.

MTA: Security Fundamentals - Certified 2016

Issued by: Microsoft

Issued to: MATTHEW MATTHEY

Issued on: 17 October 2012

Description

Earners of the MTA: Security Fundamentals certification have demonstrated fundamental security knowledge and skills. The MTA program provides an appropriate entry point to a future career in technology.

MTA: Windows Server Administration Fundamentals - Certified 2016

Issued by: Microsoft

Issued to: MATTHEW MATTHEY

Issued on: 17 October 2012

Description

Earners of the MTA: Windows Server Administration Fundamentals certification have demonstrated knowledge of fundamental server administration concepts. The MTA program provides an appropriate entry point to a future career in technology.

Exam 413: Designing and Implementing a Server Infrastructure

Issued by: Microsoft

Issued to: MATTHEW MATTHEY

Issued on: 28 January 2013

Description

Passing Exam 413: Designing and Implementing a Server Infrastructure validates the skills and knowledge necessary to design, implement, and maintain a Windows Server 2012 infrastructure in an enterprise scaled, highly virtualized environment. Candidates demonstrate the ability to plan, configure, and implement the Windows Server 2012 services.

Exam 414: Implementing an Advanced Server Infrastructure

Issued by: Microsoft

Issued to: MATTHEW MATTHEY

Issued on: 29 January 2013

Description

Passing Exam 414: Implementing an Advanced Server Infrastructure validates the skills and knowledge necessary to design, implement, and maintain a Windows Server 2012 infrastructure in an enterprise scaled, highly virtualized environment. Candidates demonstrate the ability to the plan, configure, and manage the Windows Server 2012 services.

Exam 412: Configuring Advanced Windows Server 2012 Services

Issued by: Microsoft

Issued to: MATTHEW MATTHEY

Issued on: 30 January 2013

Description

Passing Exam 412: Configuring Advanced Windows Server 2012 Services validates the skills and knowledge necessary to administer a Windows Server 2012 infrastructure in an enterprise environment. Candidates demonstrate the ability to perform the advanced configuring tasks required to deploy, manage, and maintain a Windows Server 2012 infrastructure.

Exam 411: Administering Windows Server 2012

Issued by: Microsoft

Issued to: MATTHEW MATTHEY

Issued on: 31 January 2013

Description

Passing Exam 411: Administering Windows Server 2012 validates the skills and knowledge necessary to administer a Windows Server 2012 infrastructure in an enterprise environment. Candidates demonstrate the ability to maintain a Windows Server 2012 infrastructure, such as user and group management, network access and data security.

MCSA: Windows Server 2012 - Certified 2016

Issued by: Microsoft

Issued to: MATTHEW MATTHEY

Issued on: 1 February 2013

Description

Earners of the MCSA: Windows Server 2012 certification have demonstrated the skills required to reduce IT costs and deliver more business. They are qualified for a position as a network or computer systems administrator or as a computer network specialist.

Exam 410: Installing and Configuring Windows Server 2012

Issued by: Microsoft

Issued to: MATTHEW MATTHEY

Issued on: 1 February 2013

Description

Passing Exam 410: Installing and Configuring Windows Server 2012 validates the skills and knowledge necessary to implement a core Windows Server 2012 infrastructure in an existing enterprise environment. Candidates demonstrate the ability to implement and configure Windows Server 2012 core services, such as Active Directory and the networking services.

Exam 246: Monitoring and Operating a Private Cloud with System Center 2012

Issued by: Microsoft

Issued to: MATTHEW MATTHEY

Issued on: 25 February 2013

Description

Passing Exam 246: Monitoring and Operating a Private Cloud with System Center 2012 validates experience with Windows Server, System Center 2012, security, high-availability, fault tolerance, and networking experience in an enterprise environment. Candidates demonstrate the ability to configure data center process automation, deploy resource monitoring and manage configuration and protection.

Exam 247: Configuring and Deploying a Private Cloud with System Center 2012

Issued by: Microsoft

Issued to: MATTHEW MATTHEY

Issued on: 26 February 2013

Description

Passing Exam 247: Configuring and Deploying a Private Cloud with System Center 2012 validates skills and knowledge of Windows Server, System Center 2012, security, high-availability, fault tolerance, and networking experience in an enterprise environment. Candidates demonstrate the ability to design and deploy System Center as well as configure the fabric and System Center infrastructure.

Exam 342: Advanced Solutions of Microsoft Exchange Server 2013

Issued by: Microsoft

Issued to: MATTHEW MATTHEY

Issued on: 26 November 2014

Description

Passing Exam 342: Advanced Solutions of Microsoft Exchange Server 2013 validates the skills and knowledge necessary to configure Unified Messaging as well as manage site resiliency, and advanced security. Candidates typically have a minimum of three years of experience managing Exchange servers and are responsible for the Exchange messaging environment in an enterprise environment.

Exam 331: Core Solutions of Microsoft SharePoint Server 2013

Issued by: Microsoft

Issued to: MATTHEW MATTHEY

Issued on: 6 December 2014

Description

Passing Exam 331: Core Solutions of Microsoft SharePoint Server 2013 validates the skills and knowledge necessary to plan and maintain SharePoint and other core technologies upon which SharePoint depends, including Windows Server 2008 R2 or later, Internet Information Services (IIS), Microsoft SQL Server 2008 R2 or later, Active Directory, and more.

## Exam 341: Core Solutions of Microsoft Exchange Server 2013

Issued by: Microsoft

Issued to: MATTHEW MATTHEY

Issued on: 7 December 2014

Description

Passing Exam 341: Core Solutions of Microsoft Exchange Server 2013 validates the skills and knowledge necessary to plan, install, configure and manage the mailbox role, client access, and transport within Exchange Server. Candidates have a minimum of three years of experience managing Exchange servers and are responsible for the Exchange messaging environment in an enterprise environment.

Exam 409: Server Virtualization with Windows Server Hyper-V and System Center

Issued by: Microsoft

Issued to: MATTHEW MATTHEY

Issued on: 9 December 2014

Description

Passing Exam 409: Server Virtualization with Windows Server Hyper-V and System Center validates the skills and knowledge required to design, implement, manage, and maintain a virtualization infrastructure.

CompTIA A+ ce Certification

Issued by: CompTIA

Issued to: Matthew J Matthey Matthew

Issued on: 15 June 2015

Expires on: 15 June 2018

Description

Earners of the CompTIA A+ certification are proven problem solvers who are able to perform critical IT support tasks including device configuration, data backup and recovery, and operating system configuration. CompTIA A+ certified professionals have demonstrated baseline security skills for IT support roles and are able to detect and remove malware, address privacy concerns, and troubleshoot core service challenges.

CompTIA Network+ ce Certification

Issued by: CompTIA

Issued to: Matthew J Matthey Matthew

Issued on: 15 June 2015

Expires on: 15 June 2018

Description

Earners of the CompTIA Network+ certification have the skills needed to troubleshoot, configure, and manage wired and wireless networks found in companies around the world. CompTIA Network+ professionals have demonstrated the ability to design and implement functional networks, configure, manage, and maintain essential network devices, implement network security, and troubleshoot network problems.

CompTIA Security+ ce Certification

Issued by: CompTIA

Issued to: Matthew J Matthey Matthew

Issued on: 15 June 2015

Expires on: 15 June 2018

Description

Earners of the CompTIA Security+ certification have the knowledge and skills necessary to perform core security functions required of any cybersecurity role. CompTIA Security+ professionals know how to identify and address potential threats, attacks and vulnerabilities and they have established techniques in risk management, risk mitigation, threat management and intrusion detection.

Exam 697: Configuring Windows Devices

Issued by: Microsoft

Issued to: MATTHEW MATTHEY

Issued on: 17 October 2015

Description

Passing Exam 697: Configuring Windows Devices validates the skills and knowledge necessary for building solid identities, protection of content (data loss protection), mobile device management policy, virtualization with Hyper-V, application management using the Company Portal and the Windows Store. Candidates also demonstrate the ability to implement a Microsoft Intune device management solution.

MCSA: Windows 10 - Certified 2016

Issued by: Microsoft

Issued to: MATTHEW MATTHEY

Issued on: 14 December 2015

Description

Earners of the MCSA: Windows 10 certification have demonstrated the skills required to configure, manage, and maintain a Windows 10 enterprise system. They are qualified for a position as computer support specialist.

MCSE: Productivity — Certified 2016

Issued by: Microsoft

Issued to: MATTHEW MATTHEY

Issued on: 26 September 2016

Description

Earners of the MCSE: Productivity certification have demonstrated the skills required to move a company to the cloud, increase user productivity and flexibility, reduce data loss, and improve data security for an organization. AMERICAN COUNCIL ON EDUCATION TRANSCRIPT LEGEND

This official transcript contains credentials evaluated by the American Council on Education. The following policies apply only to ACE validated and endorsed credentials within the transcript. The American Council on Education's Learning Evaluations connects workplace learning with colleges and universities by helping adults gain access to academic credit for formal courses and examinations taken outside traditional degree programs. ACE is the national leader in the evaluation process for education and training obtained outside the classroom.

ACE Learning Evaluations reviews are conducted by experienced college and university faculty who assess the content, scope, and rigor of an organization's educational program and make appropriate recommendations for comparable college credit and competencies achieved by students. For more information on processes and standards for ACE reviews, visit https://www.acenet.edu/Programs-Services/Pages/Credit-Transcripts/Colleges-Universities.aspx.

DEFINITIONS

American Council on Education Endorsement: Credentials that carry an ACE endorsement of recommended college credits or validated competencies are designated by the ACE logo in the left margin.

Name: Legal name as entered by the student at the time of transcript request. Because students may complete courses from multiple organizations, each credential also includes the name under which the credential was issued for tracking and verification if necessary.

Credly ID#: Due to a system of record change in 2019, student ID numbers may not match numbers on older ACE transcripts.

Issued on: The date when the student completed the associated credential.

Courses: ACE-endorsed credentials include a unique identifier that ACE assigns to courses and examinations. The letter prefix designates the organization providing the experience. Duplicates may appear if a student took and passed a course or examination more than once.

Credit Recommendations: Recommendations for college credit are designated in semester hour units (SH). Each recommendation includes a total number of SH credits recommended and a breakdown of one or more subject areas and credit levels. Levels for which recommendations are issued include Vocational/Certificate, Lower Division (100-200 level courses), Upper Division (300-400 level courses), and Graduate (500+ level courses).

Grade: ACE-endorsed credentials are only included on this official transcript if the student achieved a passing grade. ACE-endorsed courses and exams meet the following minimum grading requirements: Students must earn a minimum "C" grade for Vocational/Certificate, Lower Division, and Upper Division credit and a minimum "B" grade for Graduate level credit.

RESOURCES

Additional information on ACE-endorsed educational programs, such as learning outcomes, assessment methods, etc. can be found in the National Guide to College Credit for Workforce Training at https://www.acenet.edu/national-guide/. Military training and occupations that carry college credit recommendations can be found at The ACE Military Guide at: https://www.acenet.edu/Programs-Services/Pages/Credit-Transcripts/military-guide-online.aspx.
