

THE BCCA HAS A CAMPAIGN TO ENCOURAGE AND SUPPORT THE INCREASED USE OF 911 REFLECTIVE ADDRESS SIGNS

Five minutes delay in reaching your home in the event of a fire or medical emergency can mean the difference between life and death, or saving or losing your home. One of the biggest problems that first-responders face is quickly identifying the correct address. If a fire truck misses a driveway and has to turn on a narrow road, that takes valuable minutes, potentially jeopardizing the outcome of the incident.

Don't take a chance: for \$25 you can have a double-sided address sign that is highly visible, both day and night, that will guide first-responders to your home ...fast!

For a small additional charge (usually about \$5) we can provide a post, if necessary, and install the sign for you. After you order a sign we will contact you when the sign is made-up and ready for installation (within the next few days).

Note: If required, an arrow can be added to a sign at no additional cost.
