**GLOBAL HELPING HEARTS**

Global Helping Hearts USA is a California-based 501(c)(3) humanitarian organization dedicated to restoring dignity, balance, and opportunity to global communities around the world. We believe the human experience is not divided—it is whole. Health, livelihood, creativity, belonging, and purpose are inseparable. When one is missing, all are weakened. When they are united, humanity flourishes. That is why we do not practice charity as a transaction. We practice Holistic Humanity
