Spring 2023

MESSAGE FROM THE PRESIDENT, CASEY DEPRIEST

They say spring is on its way, but mother nature seems to have other plans. Even though the temps are chilly and the snow keeps falling, now is the time to fill up your summer calendars. I hope your days and weekends are filled with earthdog, barn hunt, FCAT, scentwork, conformation, performance, therapy work, or just hanging out with your best friend. What ever you do, get out and do it!

We have a few save the dates for you to consider. A Rally Match April 29th (entries are open now), and our annual Picnic in the Park August 19th (camping spaces still available to reserve).

Don't forget Book Club and Social Zooms by-monthly. What a great way to connect with our members near and far.

We will organize a grooming day/seminar if there is interest. Speaking of interest, please do reach out to any officer or board member and let us know what interests you. What would you like our Club to offer you? Share your ideas and we'll see what we can do.

We would not be able to bring these activities to you without our wonderful club member volunteers. We appreciate you all. We are always looking for volunteers to help with club activities. If you would like to volunteer with anything please reach out, and we will see if we can put you to work. We would love to see what you can bring to the table.

Hope to see you around the rings this summer.

GROOMING QUESTIONNAIRE – PLEASE RESPOND BY APRIL 20

To: Marguerite Lynch at dazedandconfused12@msn.com with your feedback.

We would like to survey the membership on ways to proceed with a grooming workshop. Last year the workshop was presented as a hands-on event where people brought and worked on their own dogs. Several experienced/pro groomers were present and covered hand stripping, clipping, and scissoring techniques. Different tools were demonstrated, and tips and tricks were shared. Both the pet and show grooming methods were covered.

Please provide feedback on a few questions:

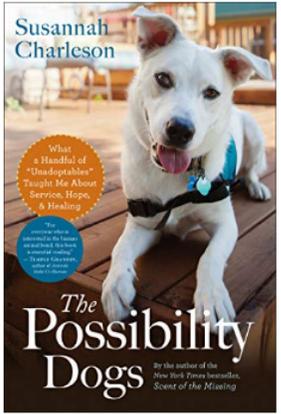

Would you prefer a hands-on grooming day where you groom your own dog?

Would you prefer a more informational seminar where you sit and watch demonstrations as specific methods are covered?

Do you have different ideas/feedback on how this would be a productive, learning event?

After a grisly search-and-rescue operation led to troubling consequences for author Susannah Charleson, she found that her relationship with Puzzle, her search dog, made a surprising contribution to her own healing. Inspired by that experience, Charleson learned to identify abandoned dogs with service potential, plucking them from shelters and training them to work with disabled human partners, to whom the dogs bring assistance, comfort, and hope.

Similar to her best-selling first book, *Scent of the Missing*, Charleson's *The Possibility Dogs* goes beyond the science that explains working canines to tell the stories of the dogs themselves. Like Merlin, a black Lab puppy who had been thrown away in a garbage bag and now stabilizes his partner's panic attacks. And service dog Jake Piper, a formerly starving pit bull mix who went from abandoned to irreplaceable. This heartwarming combination of memoir and research is sure to both inform and inspire.
