

# FOAN2021

## SPECIAL SESSION: SECURITY IN COMMUNICATION NETWORKS

STAY CONNECTED!!

Background photo created by natanaelginting

### ORGANIZERS

#### GENERAL CO-CHAIRS

**Petr Munster**

**Tomas Horvath**

Brno University of Technology,  
Czech republic

### IMPORTANT DATES

**July 31, 2021**

Paper Registration

**July 31, 2021**

Paper Submission (4 pages max)

**August 31, 2021**

Notification of Paper Acceptance

**September 19, 2021**

Submission of Final Papers

### CALL FOR PAPERS

The primary goal of FOAN 2021 is to bring and present the latest research in the field of Fiber Optics Technologies. A special workshop on security in communication networks focuses not only on improving the security of existing communication networks, but also on their security risks.

#### TOPICS FOR SPECIAL SESSION INCLUDE (BUT NOT LIMITED)

- Security in communication networks;
- Sensors in Broadband Networks,
- IoT Sensors and Actuators;
- Sensors in Smart City
- Leakage of information from communication networks;
- Optical sensors using telecommunication fibers
- Sensor Materials, Processing and Fabrication

### PUBLICATION OF PAPERS

Papers presented in this session will be send to **IEEE Xplore Digital Library**. The journal **MDPI Sensors** will publish a special Issue based on papers presented in this session.
