

Quality Statement

Evolution Management concentrate on delivering cost effective solutions that provide fire resistance, reduce flame spread and reduce smoke and toxins with paints, fluids, and varnishes in many finishes/colours/wood stains.

Neil Edwards of EMC undertakes Continual Professional Development activities to maintain and improve his Skills and Knowledge as required by Competency Guidelines.

Neil Edwards is a member of the IFSM, ASFP and Fire Aware

EMC provides products and services to our customers that fully meet their requirements. We are dedicated to constant improvement in every area of our business and with the specific aim of reducing the complexity and costs of delivering the highest standards of fire safety coatings.

Recommended products are tested independently in UKAS / EGOLF Fire Test Laboratories.

Fire test certificates are evaluated prior to any recommendation to ensure compliance can be met or clients can be informed of the classifications achievable.

Evidence of Neil Edwards Competency and full SKEB is available on request.
