

Standardized Operating Procedures:

At Leggio Realty Group, we strive to make the home buying and renting experience as smooth and accessible as possible.

There's no general requirement to provide photo identification when working with us. However, please note that some property owners or partner brokers may request it before a showing or as part of their process. If that ever applies to your situation, we'll let you know in advance so there are no surprises.

You're not required to sign an exclusive buyer representation agreement to work with Leggio Realty Group — we're here to support you at your pace and comfort level.

Similarly, while we don't require a mortgage pre-approval to begin working together, some property owners or brokers may request one before scheduling a showing or submitting an offer. If that comes up, we'll communicate those requirements clearly and guide you through the next steps.
