

The Primitive Weaver

Fiber arts made simple, fun, and satisfying.

What is a peg loom?

A peg loom is a simple fiber arts hand tool that allows people of all ages to weave beautiful, unique creative projects. Peg looms can be built in any width and are the perfect companion to bring to your knitting or spinning group.

What can you make with a peg loom?

Just about anything: head bands, sashes/belts, scarves, bags/purses, throw rugs, childrens' play mats, chair pads, pot holders, and much more.

What materials can be used to weave with?

While we are partial to alpaca fibers, any fiber or yarn that you can think of. Weaving is the ultimate way to upcycle—think old sheets or towels, blankets, t-shirts, even old blue jeans. Our rug weaving yarn is sold by the pound.

About the Primitive Weaver

Our peg looms are expertly hand-crafted, utilizing both locally harvested and salvage materials. Choose from a basic hardwood (birch, maple, ash); specialty or figure wood (quarter-sawn oak, curly oak or maple, cherry); even custom-designed combinations like the spalted apple with mahogany and curly maple trim pictured below. Some looms may have bore holes, knots or occasional blemishes—we think that every piece is unique and its imperfections only add to its beauty.

Looms come with drilled pegs and peg holes at 3/4 and 1/2 inch spacing that allow for both bulky items like rugs and finer accessories like scarves. But you can custom order a loom with spacing that allows for any weaving project that appeals to you.

Loom Prices

Size	Basic Hardwood	Specialty Hardwood	Custom Design
36 Inch	\$130	\$135	\$215 (starting)
24 Inch	\$95	\$100	\$165 (starting)
12 Inch	\$55	\$60
