WHAT IS A HOME FUNERAL?

"Home funeral" can refer to a traditional vigil or wake with the body present in the home, but includes any response to death that is slower-paced, family-centered, and helps the bereaved find authenticity and connection. When anticipating a death, taking time to plan and imagine the moments and hours after death can reduce the fear and crisis mode that often follows. Whether you are making preparations for death or need help in the moment, Monica is here to support you day or night.
