

RFP#227/27323 for the **selection of a procurement operator for the United Space Forces**

Dear Prospective Bidders,

We are pleased to announce RFP#227/27323 for the selection of a procurement operator for the United Space Forces. Our organization is seeking proposals from qualified bidders who can set up and operate a procurement process as close as possible to the procurement procedure of the International Bank for Reconstruction and Development (IBRD), and who can utilize the Deep Space Communication and Authorization platform to make the procurement process faster and more efficient.

The United Space Forces require the procurement of goods, works, and services in various categories. The estimated unclassified volume of procurement is 17800 contracts per year, with a total value of no less than USD 215 billion. The procurement process will be conducted in accordance with the procurement procedures of the IBRD, which will serve as a reference guide for bidders. *ll*

The scope of the procurement process will include the following categories:

1. Goods - including equipment, spare parts, and supplies
2. Works - including construction and installation services
3. Services - including consultancy, training, and maintenance services

Details regarding the procurement process will be provided to qualified bidders upon request. The requirements for bidders are as follows:

1. Demonstrable experience in procurement operations

2. Ability to implement procurement procedures in accordance with the IBRD procurement guidelines
3. Familiarity with the Deep Space Communication and Authorization platform

To apply, please submit your data for authorization to <https://t.me/+KL2JOIhdUmJjMmNi>.

The deadline for submitting applications is 27 April 2023, 17:00 GMT.

ll

Qualified bidders will be required to submit their technical and financial proposals in accordance with the requirements outlined in the RFP. The proposals will be evaluated based on the following criteria:

1. Technical expertise and experience in procurement operations
2. Proposed methodology for implementing the procurement procedures
3. Compliance with the IBRD procurement guidelines
4. Cost-effectiveness and value for money

The United Space Forces reserve the right to accept or reject any or all proposals received, without assigning any reason for the decision. The selected bidder will be required to enter into a contract with the United Space Forces, subject to the terms and conditions set forth in the RFP.

The following references to the IBRD procurement system are included in RFP#227/27323:

1. The procurement process will be conducted in accordance with the procurement procedures of the International Bank for Reconstruction and Development (IBRD), which will serve as a reference guide for bidders.

2. The requirements for bidders include the ability to implement procurement procedures in accordance with the IBRD procurement guidelines.
3. The proposals will be evaluated based on compliance with the IBRD procurement guidelines.

By referencing the IBRD procurement system, the United Space Forces seek to ensure that the procurement process is conducted in a transparent, efficient, and cost-effective manner, with a focus on achieving value for money and promoting fair competition. The IBRD procurement system is recognized as a leading global standard for public procurement, and the United Space Forces believe that it will help to ensure the success of this procurement process.

Thank you for your interest in this opportunity.

Sincerely,

USF
