She emphasized what we when we are out playing and something happens whether someone falls, gets dehydrated, sunstroke, has a heart attack, etc. The first thing you do is have one person call the pro shop while another person calls 911. Be sure when talking to the 911 operator you tell them what city you are calling from and where you are. There are defibrillators outside the bathrooms on the course as well as Narcon boxes. Thank you, Cathy!!
4. **Charlotte Sanders – Rules** – Charlotte stepped in for Suzi during the Advisory Board meeting. Here are some of the updates: Barb Baldassano was recognized for doing a fantastic job in spearheading the social events. Fixing ball marks on our greens is still a huge problem. The board is thinking about having to assign people to holes as they've done in the past. If you see a divot, please fix it. The board also asked that everyone pair up when taking a cart. If they see a foursome with three carts and no one is sharing, each person will be charged \$48. Or two carts with one person both will pay \$48. There are new practice range balls. The club received 53 new push carts. The new pumps and irrigation system is now up running so we can begin to water the fairways again. The first tee box has been resodded and this will be an ongoing project for the rest of the tee boxes.

Rules update: She recommended that we take the Rules 101 quiz on the USGA website or use the USGA rule app. She even learned something by taking the quiz.
