

STERILIS SOLUTIONS

SMALL CHANGE. BIG IMPACT.

GROWING, MULTI-BILLION DOLLAR RMW MARKET

- The global medical waste management market is expected to grow from \$16.23 billion in 2021 to \$17.03 billion in 2022 at a compound annual growth rate (CAGR) of 5.0% and is expected to reach \$20.69 billion in 2026.
- Key factors that are driving the market growth include inflation, fewer incinerator options, cost of fuel, labor shortages, rising prevalence of diseases, and growth of the overall medical and healthcare industry.

OPERATIONAL & ENVIRONMENTAL CHALLENGES

Collection and Storage

Incineration, Emissions, and Landfill

Hauling and Liability

MEDICAL WASTE STREAMS AND CATEGORIES

Red Sharps Container

- Needles
- Ampules
- Broken Glass
- Blades/Razors

Bio-Hazard Red Bag

- Collection
- Cups, Swabs
- Blood tubes/bags
- PPE, Dressings/
Cotton Swabs
- Cultures, stacks
- Dialysis kits/tubing

Blue Sharps

- Pharmaceuticals
- Pills
- Injectable
Antibiotics

Yellow/Black Sharps

- Chemotherapy
Medication
- Pathological waste

RMW: REGULATION AND LIABILITIES

Primarily regulated at the State level

- Disposal, labeling and storage requirements are complex and vary from state-to-state
- Tracking and logging RMW from generation to disposal required
- Records must be maintained for 3-5 years
- EPA and OSHA also regulate RMW

Liabilities

- Originator of RMW has liability cradle-to-grave (sterile disposal and tracking)
- Liability does not transfer to hauling companies
- Fines can be steep
 - PA hospital fined \$538K when its untreated RMW was found in a landfill
 - A hospital fined \$70K when mislabeled RMW was sent to public transfer station
 - PA dentist faced \$125K in fines and 10 years in prison after his RMW washed ashore in NJ

OLD WAY

- Collection, Storage, Service Level Issues
- Incineration, Emissions, and Landfill
- Hauling, Cradle to Grave Liability, and Increasing Costs

WHAT WE'VE HEARD:

"The **environmental impact** of incineration isn't in line with our **sustainability goals**."

"**Fees** on **fees** on **fees**.
What is there *not* a **fee** for?"

"Year over year **cost increase** from 8% - 18%."

"We're **liable** for the actions of our third-party hauler."

"We've had numerous **service level issues** with our hauler."

"We have **no bargaining power** for what we pay our haulers."

Do any of these challenges resonate with you too?

OLD WAY VS NEW WAY

SMALL CHANGE. **BIG IMPACT.**

Impact operating costs

Impact carbon footprint

Impact regulatory compliance

Impact liability

Impact third-party dependency

Impact safety

There are several ways the Sterilis Solutions Remediator can have a positive impact on your regulated medical waste.

THE REMEDIATOR

36"W x 24"D x 47"H;
Easily fits into a
pharmacy, clinic,
lab, or dirty room

Simple to use: Log in,
load, and press 'start'

Automatically logs and stores
compliance data.
Prompts and records
bio-challenges

60-Minute
Cycle

No odor and quiet

No Plumbing
Required

220V Model

CLOUD-BASED REGULATORY COMPLIANCE

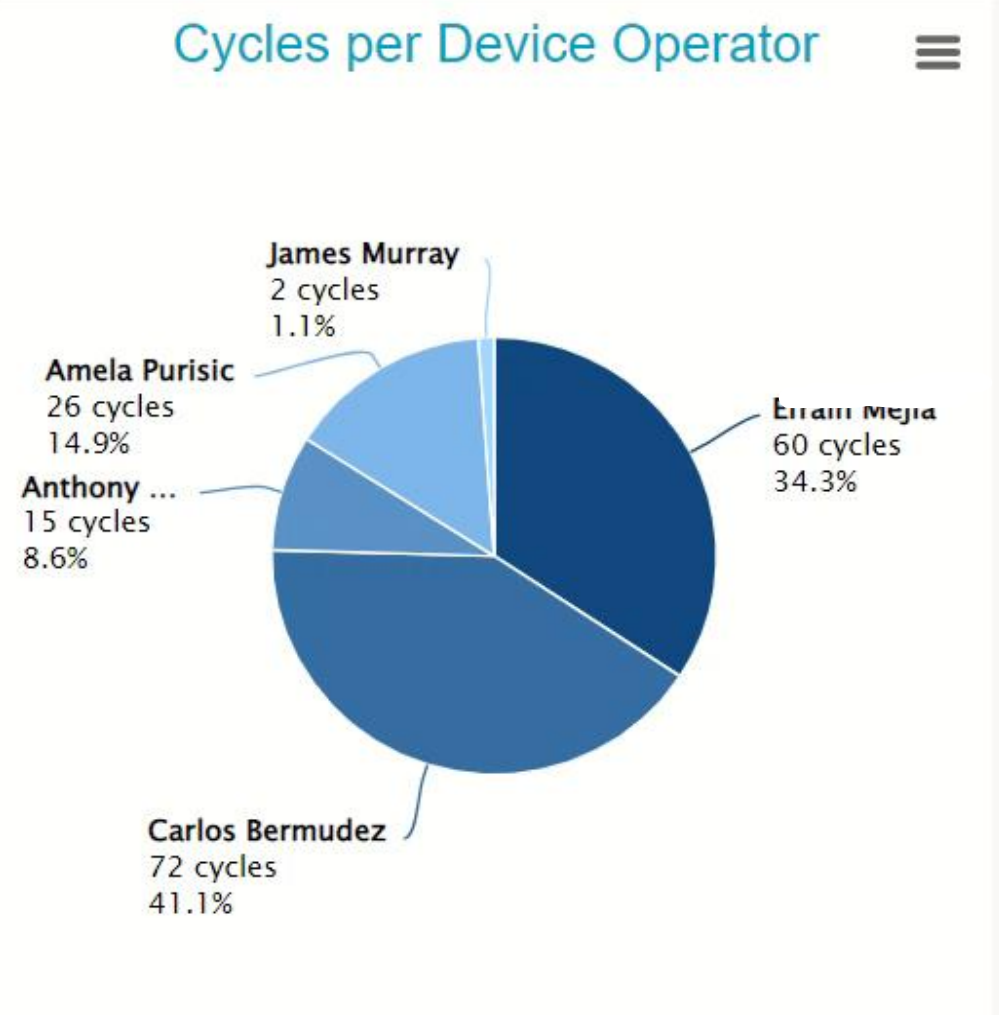

The Sterilis Solutions Remediator comes with a cloud-based software here are a few key features and benefits:

Device ☒ Customer Devices Only

LabQ Clinical Diagnostics @ Brooklyn : 119-00190

From 2022-11-09 To 2022-11-13

Cycle Report

The active cycle, if any, is displayed in this color.

PDF CSV Comprehensive Compliance

- Real-time, runtime checks throughout each cycle
- Intuitive user interface
- Machine operation automatically logged
- Automatic email notifications when cycles end. Advanced bio challenge alerts
- Cloud-based reporting including audit reports and machine operations report. State-specific biological challenge regulation intervals are automatically enforced and tracked
- Ensure only sterilized waste completes the process
- Easy to use with minimal interaction time
- Eliminate the need to maintain separate logs or store printed manifests
- Increase efficiency and productivity
- Reduce risk & liability

ENVIRONMENTAL CONSUMPTION AND OUTPUT

<350 ml Per Cycle

1.0 kw-h Per Cycle Using
Standard Fossil Fuel Energy

Up to 80% Less Waste Volume

CIRCULAR DESIGN AND SUSTAINABILITY

Advanced Recycling

SMALL CHANGE. **BIG IMPACT.**

WHAT ARE YOUR GOALS?

Sustainability?

Reduce liability?

Cost reduction?

Green initiatives?

Increase safety?

REMEDIATOR ACT LABEL

Sterilis Solutions Remediator is ACT certified.

ACT is the world's premier eco-label for laboratory products that ensures Accountability, Consistency, and Transparency to enable sustainable laboratory procurement.

Sterilis Solutions is a proud sponsor of My Green Lab's mission to build a global culture of sustainability in science.

*All numbers shown above are taken from present hospital waste hauling contracts. Sterilis Solutions completed a detailed waste assessment to build an accurate ROI; taking into consideration hours of operation, current hauling spend, and the total volume of waste produced per month.

STERILIS SOLUTIONS SHARPS CONTAINERS

4 - GALLON

2 - GALLON

1 - GALLON

- Used to comply with FDA and OSHA standards for sharps and biohazard waste collection
- General-purpose sharps container with clear locking lid and marked with a biohazard label
- Puncture-resistant with a wide circular opening for vertical and horizontal loading of needles
- Made from transparent red polypropylene that can be autoclaved or incinerated
- Nests to conserve storage space
- Designed to compliment Sterilis Solutions Remediator

THANK YOU!
