Patent No. 2003238563
Black Urea® is a registered trademark of Advanced Nutrients Pty Ltd

This label complies with the National Code of Practice for fertiliser description and labelling.
APPLICATION GUIDE

Black Urea® is specifically targeted to improve profits on low fertility soils. Application in concert with sustainable farming practices such as incorporation, split application and irrigation management will produce best results. Suitable for pre-sowing, top-side dressing and water running by all means typical to granular and soluble fertilisers.

STORAGE

It is generally recommended that fertiliser not be stored in silos. If it is necessary to store this fertiliser in silo, it should be for a short period of time only, i.e. temporary storage immediately prior to use.

HEAVY METALS

Use of this product may result in Cadmium and/or Lead and/or Mercury residues in excess of the Maximum Permitted Concentration (MPC) in plant and animal products and may also result in accumulation of these residues in soils.

CARE OF EQUIPMENT

This product can be corrosive to metals. Clean equipment after use, and follow manufacturers advice.

Analysis: w/v (weight/volume)
Product: pH 9.1 (10% Solution)
Solubility: (H₂O): 1050 g/L @ 20°C
Bulk Density: 700 - 780 kg/m³
Screened at load out: <16mm
Specific Gravity: 1.33
Melting Point: 133°C
Granules: 90% @ 2 - 4 mm
Autoignition Temp: >133°C
