

## Antique Hanky quilts

### Supplies:

**7-9 hankies** (Try to make one hanky your focus fabric for the quilt. It will be placed in the center of your quilt top and you will place additional hanky pieces around it. Think about using a color scheme or theme for your quilt. Make a selection of various designs. Try not to make them all see through hankies if possible as you will see the layers beneath each piece.)

**small antique doilies, linens, tatting, embroidery, trims, buttons, etc.** (you will add these to your quilt top as embellishments and to cover up seams)

**1 fat quarter fabric that coordinates with your hankies** (this fabric will possibly show through your see through hankies/linens so choose a solid or print that will not detract from your overall design)

**rotary cutter with new blade**

**glue stick/pen**

**small craft iron if you have one**

**nonstick pressing sheet**

**backing fabric and batting** (we will quilt on our machines if you get your tops done using decorative stitches or grid work using a **walking foot**)

**general sewing supplies** (machine in good working order, thread to coordinate with your hankies, needles for sewing on buttons, straight pins, ruler)
