

INTOXICATED

**I get drunk on you,
And then what to do
I have no clue.
It's like I'm oh so crazy.
My brain is all fried
And I'm tongue-tied.
Intoxicated by you, my baby.**

**I can't rest one bit
"Til I get a het.
Can't stand or sit.
I Know I have the shivers.
Then I feel you near,
Too much to bear,
Intoxicated, my pusher delivers.**

**Just how can it be
That when you're with me
All I can see
Is this really dazzling light?
'Cause it's like I'm blind,
You've blown my mind.
Intoxicated, that's clearly my plight.**

**So, I'll take my licks,
It's all in the mix.
That special fix,
You have to give it to me.
You have what it takes,
Nothing else placates,
Intoxicated, I beg, on bended knee.**

**I have to behave.
Because of this crave
I am your slave.
Do with me what you will.
Why should I resist
When it's all bliss,
Intoxicated and loving it still.**
