

Contracted Supplier

Premier Contract Number: PP-SV-452 Contract Period: April 1, 2025 - August 31, 2028

Expert Staffing Partner for Long-Term Care & Assisted Living Facilities

Staffco Healthcare is an expert at connecting qualified clinicians with successful long-term care and assisted living communities. Our mission is to deliver an exceptional staffing service to long-term care and assisted living facilities nationwide through both short-term and long-term solutions. We aim to be the top source for high-quality staffing solutions, providing top-notch care and support to our clients **and the residents they serve.**

Comprehensive Solutions to Meet All of Your Staffing Needs

We collaborate with your Human Resource team to formulate the best workforce strategy for your long-term care or assisted living community. These services can vary widely from part-time per diem services to full-time services, and long-term placement.

Very Competitive Rates with Minimal Fluctuation

Our structure allows us to provide rates that are among the most competitive. With the option for a flat administrative fee vs. a typical staffing company markup, these cost savings become more apparent during times of stress such as a pandemic. This structure makes us extremely competitive in good times and the low-cost provider in turbulent times. During the COVID pandemic our rates were 30% lower than competing firms with the same or similar demographics — critical support for LTC and AL facilities operating on tight budgets.

The Local Advantage

By providing local healthcare professionals we are accessing an untapped market of experienced clinicians who would normally travel to a competing facility. Local clinicians provide greater consistency and lower error rates. These lower error rates and greater consistency of care — vital for building trusting relationships with residents and families mixed with staffing priority over outsourced help lead to a much better culture and higher resident satisfaction.

The Long-Term Solution

The long-term goal is to transition these workers into permanent employees. By becoming a long-term partner, this also allows your community to decrease the number of outsourced nurses that cycle in and out. We are essentially creating long-term solutions to long-term problems vs. just treating the symptoms - a very important Factor!

The Staffco Healthcare Promise

- Competitive Rates
- Consistency of Care
- Core Workforce vs Continued Outsourcing
- Flexibility between Part Time/Full Time
- Improved Culture and Morale
- Liability Insured W2 Employees
- Lower Acquisition Costs
- No Minimum Hourly Requirements
- Nurse Trial Observation
- Temp to Hire Options
