

ABOUT AMERICAN KINETICS LAB

We're a full-service DME (Durable Medical Equipment) company based in Brooklyn, New York, with over 20 years' experience bracing and orthotics, fitting diabetic, orthopedic footwear. We specialize in personal and confidential service for all our customers. We offer a full line of diabetic products, arthritic supports, and many other durable medical supplies.

Our mission – is to offer the absolute best service, to effectively serve all the specialized and diverse needs of the medical community, while conducting ourselves with honesty and integrity. We dedicate ourselves to our customers, our suppliers and to one another, with one common goal in mind: To effectively distribute products and services to the medical community at the best possible price, while continuously look to improve, expand and broaden our exciting product lines and services to best serve our customers.

Our attention to service and detail is quickly making American Kinetics Lab New York City's fastest growing provider of medical equipment and supplies at the best possible price.

Our Products – American Kinetics Lab's long-term relationships with the leading suppliers of medical supplies and equipment allows us to offer a broad range of high quality products allowing our customers to access exactly what they need. With more than 40,000 SKUs from more than 1,200 manufacturers and our experienced sales support team will assist in locating even hard to find items.

We have a track record of meticulous personal attention and outstanding customer service. We undertake to lighten the paperwork load for prescribing physicians while keeping delivery times short for our patients.

We would like to take this opportunity to offer our services to you and your patients; our professional reputation speaks for itself. We accept most insurances, and we ship to the continental U.S. as well as Hawaii and Alaska.

In order to process a prescription, we ask for a detailed written order, a copy of the patient's medical records/visit notes that include the diagnoses being prescribed, and a copy of the patient's demographic information.

Please do not hesitate to contact us should you need assistance or have any questions.

We look forward to hearing from you soon, and hope to form a partnership that will benefit your patients for years to come. Our fax is **917.688.2555**; our email address is **kineticslab@gmail.com**; our phone number is **347.850.4550** (please ask to speak with Irina or Katya for fastest service).
