June'2021

This month we have...

The younger children have enjoyed exploring our local community. We love visiting the ducks at the pond, playing on the climbing frames and swings. We also like sharing books with the local library. We have also enjoyed exploring lots of textured play activities. We enjoyed making marks in shaving foam and glitter, exploring dry cereal play that we could also taste and we explored paints and used different tools such as sponges and brushes to create our marks with. We have also had our outdoor area extended so we have enjoyed spending lots of time outside exploring our building blocks and began mark making on our chalkboards using the chalks.

The older children have enjoyed talking about healthy eating. The children have been reading the story 'Kitchen Disco' which is all about fruit and vegetables. The children have enjoyed gluing and sticking on different fruit and vegetable shapes. We spoke about which ones are our favourite to eat and also used the same colour of collage materials to match the colour of the fruit and vegetables. We also liked to taste, feel and smell a variety of fruit and vegetables. Yummy!

What are we doing in 0-3 room ?

Talking about our Daddies and taking part in Father's Day crafts.
