ROSS BLACKWELDER
MACHO
LOT #3

Macho will be 13 months old at time of sale. He is out of my best dog, Swoosh and a Biggerstaff male. He is neutered. He has been to 13 lion trees and improved each time out. He has been started well and should make someone a fine hound.

WHITAKER BROTHERS
LOT #4 HOOK

"Hook"

10 1/2 month old neutered male. Ruckus/Kooyah bred Parents are versatile mountain lion, bobcat, and bear dogs. Parents are legit dry ground lion dogs. Hook is in wicked shape and ready to be hunted everyday. I will stand behind a 60 day trial, if he doesn't stick then bring him back.

STEVE BIGGERSTAFF

LOT #5

7 month old male pup. Biggerstaffs Red Penny cross this proven cross produces exceptional lion hounds every time. They are natural starters and are the perfect combination of nose, speed and brains. They are relentless track pushing type hounds. Pup will be neutered. Pick up will be Oct 15-20, 2023.

WADE HOLLARMAN

LOT #6

She's 7 years old and as good as they come. you'll see her cold trailing a lion one day and fighting a bear the next! If you hunt at all, you understand how many hours, miles, money and luck it takes to get one trained! The opportunity to buy one like this don't come around very often.

DIERINGER OUTFITTERS MALE

LOT #7

Neutered male, 7 in July. Most of his ancestors have hunted into their teens. Very tough, will hunt hard every day. Mostly hunted horseback but experienced hunting in front of a vehicle as well. Good strike dog, hunts a track hard. Pushes a good track fast but will grind out a tough track. Bawl mouth trailing, doesn't open off of the track and trees good. 2 week trial.

STEVE BIGGERSTAFF PEPPER

LOT #8

7 year old blue tick female, finished lion hound. Has seen countless lions and bobcats. She handles easy and is a no nonsense lion hound. She has good feet and is cold nosed. Great strike and tree dog.

KYLE NOWERS

HECTOR

LOT #9

Hector

5 year old intact male. I have had Hector since he was a puppy. I raised and trained him on lion and bear. He is out of a Wade Hollerman male and a Richie Zeccardi bred female. Both parents are top notch big game hounds. He has seen roughly 70-80 lion trees and probably 50 bear trees. He will rig a bear, start his own track, and be at the tree when you get there. He will trail a lion in the dirt but is not what I consider super cold nosed. He will catch his own lion in the snow and trees hard. You will have to drag him away from any tree. He has good feet, not mean in any way, and is an easy keeper. Handles like a dream and would make a great addition to anyone's pack. I will have a video on him as soon as I can. Give me a call with any questions. 435-619-3426

RUSTY HERRERA

LOT #10

10 month will be a year by sale date. These dogs have been on 20+ lions and are great on the trail! Well trained and well behaved dogs that anyone would be lucky to have in their line up.

ROSS BLACKWELDER

MAY

LOT #11

May will be 15 months at time of sale. She's a granddaughter to Salt, hunted by Neal Call and Mike Leonard. She's been to 11 lion trees, and not only made all the trips, but has been contributing as well. She's broke off fox, WT deer, mule deer, coon, seen some elk, and bumped off one bear. I would not call her finished, as she's just a teenager, but she's close.

May should make a fine bear dog. Her full sister, five years older, is the best lion/bear dog I have ever hunted with. Heavy SW Nance breeding. They start early, and May is no exception. She can catch her own lion right now. This line of dogs do not have the best feet or coldest nose, but are fast on track, superior locators, and hard tree dogs. They look different, act different, and are different, but will catch you more game, period.

GAMBLER

LOT #13

Gambler – 2010 Gelding – 15'2 Hand

Gambler has experience and or training in Trail Riding / Ranch Work / Ranch Roping / Arena Roping / Barrel Racing. He has been out with cowedogs but not hounds. Gambler was bred and raised by us. His sire, Lucky Aces and Eights won the All American Derby Consolation and is a leading sire of barrel horses. His dam Tiny Bar Lady took our daughter to High School Nationals three years in barrels and one year in poles. Lady was a proven arena horse and is a combination cutting and running horse, with Holey Sox and Lay A Patch on her papers. Gambler has been patterned on the barrels but never hauled. He has been lightly roped on in the arena both heading and heeling but not hauled. He has been used ranching in the Bookcliffs. He has been used many years in hunting camp trailing and packing elk and deer in the rough country of the Bookcliffs. Gambler has never offered to buck, bite, strike or kick but he is a horse. Stands to be shod. He loads and hauls good. Good in pasture with other horses. He has been in combination stock trailers, bumper pulls and slant loads. Gambler has been ridden by experienced riders and not so experienced riders. All have gotten along with him fine. He is gentle but not a baby sitter. He needs someone who knows how to use the reins. Gambler has the potential to do about anything you would like. He has a big heart and doesn't run out of gas at the end of the day. He can go all day every day. He has been off for a year due to a death in the family. He is being sold due to my husband passing away and leaving me too many horses to ride and feed. He has always been sound with no maintenance issues. We never registered Gambler but I have a full sister to him and have attached his breeding.

Seller will provide breeder certificate to buyer and buyer could get him registered with AQHA if they desire.

ANNIE

LOT #53

Annie
13.3 hands
13 years old

Gaited Molly Mule , Safe enough for the very pregnant! Quiet enough for the kiddos to pony ride! Fun enough to take anywhere on the trails! Pretty enough for everyone! Annie is the whole package! Annie is a 13 year old, 13.3 hand gaited Molly mule! She is stocky made and has a nice feel under you. She has a nice amble along walk, or you can bump her up and really cover some ground with that lovely ear flopping walk that we love on mules. She will direct rein or you can ride her one handed. Annie rides out well alone or in a group. She crosses creeks, steps over logs, goes up and down banks with ease. She rides out confidently as well. Annie recently went to Bishop mule days in Bishop, CA. She was ridden all around the fairgrounds and camp ground and handled everything with ease. We have had a variety of riders on her and she handles them all well. She also rode on the streets of Bishop. She is traffic safe. Annie has been on numerous overnight camping trips and ties out on the high line well. She trailers well and stands tied nicely. Annie turns heads wherever she goes, and she will certainly get noticed with you as well! For more information, please call Waugh Livestock Sammi 704-798-5497. Located in Brooksville, KY.

KATHY NAY MB

LOT #54

Horse Name: EXCESSIVE TROUBLE (aka MB) – 2005 Mare – Registration: AQHA – 14'3 Hand – Sound . MB has experience in Trail Riding / Ranch Work / Ranch Roping / Arena Roping / Barrel Racing. MB was bred and raised by us. We owned both her sire and dam. Her sire is a Graded Stakes Winner of \$108,000 at Bay Meadows. MB's sire was a short distance sprinter. Her dam Tiny Bar Lady took our daughter to High School Nationals three years in barrels and one year in poles. Lady was a proven arena horse and is a combination cutting and running horse, with Holey Sox and Lay A Patch on her papers. MB has been used in the branding corral, as a practice breakaway horse and competed on at CPRA rodeos in the barrels. MB has been used at gymkhanas in all events including barrels, poles, goats, flags and the fun events. She has been my daughter's competition horse until she became tied down with babies. MB is not prone to bite, strike, or kick but she has her quirks. She loads and hauls good. The mare has been lightly used over the last couple of years but mostly she has been living the good life in pasture. Due to my husbands passing I am dispersing a large portion of the horses he left behind.

BAY MULE

LOT #59

Owner statement: “ I bought this mule earlier in the summer this year for my personal riding Mule. He’s a very nice minded Mule, gentle easy to handle, and was a pleasure to ride around down the road and in the pasture. I kept him in my 1 acre backyard, where my grand children play, and he was gentle around them, and interested in what they were doing. He will come when you call him and likes to eat snacks. I recently took him for a long hard ride in the Oasis State Park Sandhill trails and late in the day, he started favoring his front left leg. I took him to the vet to see why. Attached is the veterinarian report including his using limitations that won’t work for me. I need to be able to ride in the mountains in rough terrain. I’m hoping somebody will want him and give him a good home. He’s a nice creature and deserves a good home.”
