

Greg Lecker

Greg Lecker paints landscapes outside (en plein air) and in the studio. The painter interprets the changing atmosphere of man-made & natural settings in art filled with color, motion, and emotion. Greg communicates his experiences in “real-time” with passersby and shares oil paintings – sometimes still wet – with collectors and gallery visitors to Gallery Immaginé, #183 Northrup King Building. Look for his writing, photography, and illustrations in the University of Minnesota Arboretum magazine and Nature Notes blog. As Artist-in-Residence at Banfill-Locke Center for the Arts, Greg is exploring the relevance of landscape painting to the twenty-first century.
