GENMAX GM10500XiT 10500 Peak Watt Tri Fuel Open Frame Inverter Generator, with ATS, Quiet Technology, CO Sensor

- **【Compact Powerhouse, Versatile Adaptation】** :The GM10500XiT Rated running power of 7800W and a peak power of 10500W make it ready to respond to various power demands. It is a revolutionary new generation inverter generator that redefines portability with its compact and lightweight design. Perfect for home backup, Tri-Fuel With THD $\leq 3\%$, it ensures stable power supply for delicate devices like smartphones and laptops.
- **【Energy Efficiency Leader, Green Innovation】** : Our extensive research in energy-saving technology has led to significant optimizations. By improving the muffler, carburetor, and intake system, we have achieved a breakthrough in engine air intake efficiency, allowing for optimal fuel-air mixing. Revolutionary enhancements in the combustion chamber ensure complete combustion, resulting in less exhaust emissions. With rigorous testing, the engine consumes less than 370 grams of fuel and under 5 grams of oil per kilowatt-hour, showcasing exceptional fuel economy. A full tank can run for up to 13.5 hours at 25% load, exemplifying energy efficiency and long-lasting performance.
- **【Multi-Fuel Capability, Effortless Start-Up】** : Designed to accommodate different environments and user preferences, the GM10500XiT supports flexible switching between gasoline, LPG, and natural gas. Additionally, it features convenient start-up options including one-button start, remote start, and recoil-start, ensuring quick power supply initiation under any conditions. Simplified operation allows users to take control effortlessly.
- **【Intelligent Control Panel, Enjoy Convenience】** : The generator's control panel combines multiple functions with cutting-edge technology and user-friendly design. Direct current outputs paired with USB ports meet the charging needs of various digital devices. Multi-functional digital displays provide real-time operational parameters for easy monitoring. Features such as battery charging port, ATS automatic start/stop, and parallel operation capabilities offer intelligent solutions for complex power scenarios. The CO alarm function ensures safety,

- while voltage switching accommodates different electrical standards for seamless operation.
- **【Robust Durability, Reliable Performance】** : Built with high-quality materials, the GM10500XiT promises robust durability and reliable performance under demanding conditions. Its advanced cooling system and protective features keep the unit running efficiently, extending its lifespan. Whether for outdoor adventures or emergency situations, this generator stands as a trustworthy companion, providing peace of mind and consistent power delivery when you
 - **【GENMAX Support】** FREE lifetime technical support from experts.

Product Parameters

Brand	GENMAX	Model Name	Gm10500XiT
Wattage	7.8 KW	UPC	760790248388
Power Source	Fuel Powered	Manufacturer	GENMAX
Recommended Uses For Product	Household	Part Number	Gm10500XiT
Item Weight	123.52 Pounds	Item Weight	123.5 pounds
Output Wattage	10500	Item model number	Gm10500XiT
Special Feature	CO Sensor	Special Features	CO Sensor
Included Components	Remote Control Key (1)	Batteries Required?	No
Product Dimensions	27.12"L x 25.27"W x 23.62"H	Warranty Description	1 year

Recoil Start Electric Start Remote Start

NEW WAY: AUTOMATIC START AND STOP

123LBS LIGHT WEIGHT
*New upgrade, light weight, high power, low noise.
Bring convenience to power generation.*

STRONG ADSORPTION CAPACITY

*Suck Out The Iron
Residue From The Tank*

WHAT'S IN THE BOX

Open Frame Inverter 10500
(Tri-Fuel)

Spark Plug Socket Wrench, Dual-Purpose Screwdriver, Funnel,
Wrench

NG Hose, LPG Hose, Adapter, NG Quick Connector

NEMA L14-30P Bonding Plug

Automatic Start/Stop Cable

Remote Control Key

Rain Cover

10500W TRI-FUEL INVERTER GENERATOR

A variety of fuel options are available for any emergency.
(Can charge mobile phones, computers, flashlights, etc.)

GAS

10500 STARTING WATTS

7800 RUNNING WATTS

LPG

9500 STARTING WATTS

7000 RUNNING WATTS

NG

8500 STARTING WATTS

6250 RUNNING WATTS
