## GENMAX GM17000iE 17000 Watt Gasoline Inverter Generator with CO Detect

- Powerful V-Twin engine on the go with 17000 starting watts and 14500 running watts, this generator is perfect for emergency home power, jobsite use or camping with your RV.
- Digital Control Center - The Digital Control Center features an LCD display showing hours run, voltage output, and load level.

- Push Button Start and Remote Start: Turn on your generator with a simple push of a button, or use the remote to conveniently start your generator from a distance.
- CO DETECT - Automatically turns off the generator when an unsafe level of carbon monoxide is detected.
- Inverter technology provides clean, stable power for sensitive electronics including televisions and computers.
- Neutral Floating-For easy bonding, make it perfect for home standby back up power easy connect the house. Using our special Bonding Plug(included in box) to change the neutral floating to neutral bonded status for portable use.
- 2 WIRE AUTOMATIC START&STOP, providing you a seamless system. When the AUTO GEN START connected, the external intelligent control system controls the start and stop of the generator (it will start and run if the two wires are short-circuited, and shut down if they are disconnected).

## FEATURES

- Powerful V-Twin engine on the go with 17000 starting watts and 14500 running watts, this generator is perfect for emergency home power, jobsite use or camping with your RV.
- Digital Control Center - The Digital Control Center features an LCD display showing hours run, voltage output, and load level.
- Push Button Start and Remote Start: Turn on your generator with a simple push of a button, or use the remote to conveniently start your generator from a

distance.

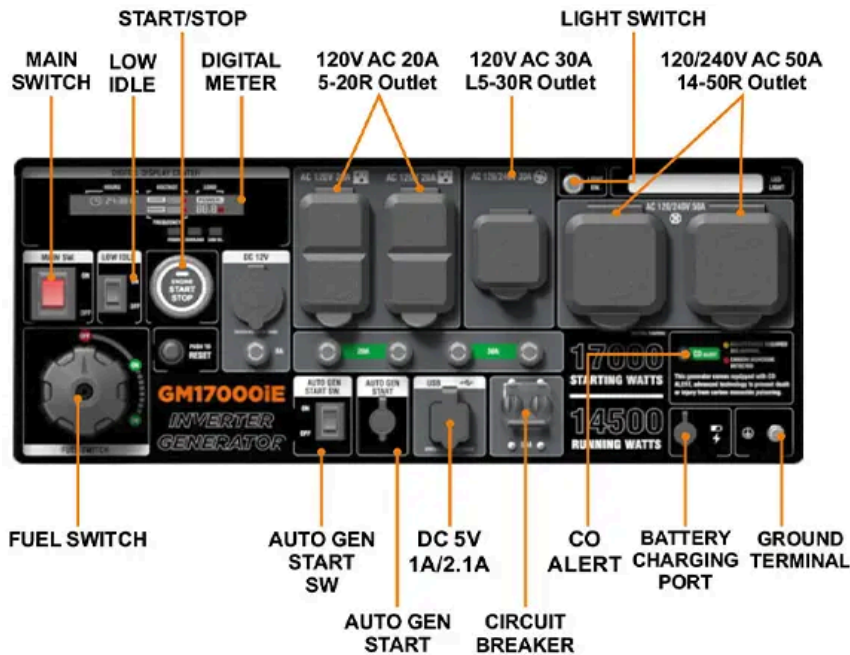

- CO DETECT - Automatically turns off the generator when an unsafe level of carbon monoxide is detected.
- Inverter technology provides clean, stable power for sensitive electronics including televisions and computers.
- Neutral Floating-For easy bonding, make it perfect for home standby back up power easy connect the house. Using our special Bonding Plug(included in box) to change the neutral floating to neutral bonded status for portable use.
- 2 WIRE AUTOMATIC START&STOP, providing you a seamless system. When the AUTO GEN START connected, the external intelligent control system controls the start and stop of the generator (it will start and run if the two wires are short-circuited, and shut down if they are disconnected).

## HOW MUCH POWER DO YOU NEED?

Sizing a portable generator is easy. Check out this example:

1. CHOOSE WHICH DEVICES YOU WANT TO POWER AT 1 THE SAME TIME.
2. RECORD THE RUNNING WATTS LISTED FOR EACH DEVICE. IF YOUR DEVICE ONLY LISTS AMPS,

CONTROL PANEL

MULTIPLY THE AMPS BY 120V TO GET WATTAGE.

EX.15A X 120V=1800WATTS

**3.** ADD THE RUNNING WATTS TOGETHER FOR ALL DEVICES.THIS IS THE MINIMUM RUNNING WATTAGE REQUIREMENT FOR YOUR NEEDS.

SPECIFICATIONS

Model	GM17000iE	Engine RPM	Variable
Running Watts (kW)	14.5	Recommended Oil	10W-30
Starting Watts (kW)	17	Fuel Tank	10.6GALLON(40L)
Rated Voltage (V)	120/240	Lubrication Method	Splash

Rated Frequency(Hz)	60	Starting Method	Electric/Remote Start
Rated Current(A)	50	Low Oil Shutdown	Low Level
Noise dB (at 7m) (25% load)	63	Product Dimensions (in)	33.1×34.6×33.5
Continuous time (50% load)	15.5h	Package Dimensions (in)	36.6×34.6×35.4
Engine Displacement	760cc	Unit Weight Lbs(kg)	308(140)
Engine Type	2V82F	Shipping Weight Lbs(kg)	445.5(205)
