

Augusta Shores Owners Association Lake Water Usage Policy

The following policy has been approved for the usage (removal) of water from any of the four lakes in the Augusta Shores Community.

Policy Statements:

1. The Augusta Shores Board of Trustees must approve all water removal projects.
2. Any time water is flowing over any lake spillway water removal for approved projects from any lake is acceptable.
3. Water that is being removed in #2 above must be stopped when the level falls to a point approximately 2 inches below the spillway. A convenient and visible measuring marker for the largest lake is the top edge of the end of the boat launch ramp. This will be used for any projects on the largest lake. The smaller lakes must be measured at the spillways.
4. All pumps for ASOA projects must be removed by October 1st and the pumping systems winterized, spring installation is permitted after April 15th. Approved private consumption projects are at the owners risk.
5. The above usage policy does not apply to emergency action by the fire protection services.
