

Augusta Shores Owners Association Deer Control Rule

Since there is an overpopulation of deer in Augusta Shores, as determined by the Missouri Department of Conservation after they surveyed the property, The Board of Directors (the "Board") has voted to allow limited hunting to help cull the deer in Augusta Shores, both in season and out of season under the terms of a Missouri Department of Conservation permit. There will be a limited number of hunters allowed in seven locations, all out of the way of residences and normal traffic on the roads or boats on the lakes. Signs will be posted in areas where hunting will take place. Safety of all residents, including the hunters will be paramount, and we will obtain extra insurance for this activity.
