## VITAFARM PREMIUM CALF MILK REPLACER 20KG

Vitafarm Premium Calf Milk Replacer is a perfect balance of superior quality full cream and skim milk powders. Formulated and boosted with essential vitamins and minerals for premium growth and fortified with Bovatec, organic acids, Bio-mos and Fibosel to enhance rumen development and increase weight gain of your calf.

**27% Protein, 22% Fat (48 Bags per pallet)**

## MAXCARE ULTIMATE MILK REPLACER 20KG

MaxCare Ultimate delivering a high level of nutrient density and additive package to help your calves achieve maximum growth rates, enhance animal health and overall calf performance.

**28% Protein, 22% Fat (50 Bags per pallet)**

## MILKPRO+ CALF MILK REPLACER 20KG

A premium quality calf milk replacer with high nutrient density combined with vitamins and minerals and superior additives. Contains Bovatec and Surveillance PRT to maximise calf health and performance.

**26% Protein, 22% Fat (50 Bags per pallet)**

## COLOSTRUM POWDER

We can supply both Profestart and Kwik Start colostrum powder. Made from Australian dried bovine colostrum suitable for use as a replacement or booster. With high levels of immunoglobulins and antibacterials for intestinal health.

**Pack sizes: 4kg**

## PROFESTART FORTIMILK GOLD

Whole milk additive specifically designed to supplement the daily requirements of fast growing, pre-ruminant calves and maximise health and growth potential. Contains vitamins & minerals plus probiotics, prebiotics and Bovatec.

**Pack sizes: 9kg**

## SUPER CALF / SUPER CALF PLUS

Super Calf is a powdered whole-milk additive combining industry-leading levels of micro-encapsulated probiotics with essential vitamins & minerals. Super Calf Plus is also now available which also contains Bovatec.

**Pack sizes: 8.5kg, 16kg**

# calf rearing

## BIO BOOST PROBIOTIC PASTE & APPLICATOR

The bio boost probiotic paste improves calf health, supporting strong growth and productivity; that promotes immunity, recovery and improves digestion. The applicator can be purchased separately.

Pack sizes: 300g

## BIO CALF PROBIOTIC CALF STARTER

Bio Calf Probiotic Powder is a highly concentrated probiotic powder designed to be added daily to whole milk or milk powder.

Dose: 1g per calf per day

Pack sizes: 1kg & 3kg tubs

## CELMANAX SCP POWDER

Celmanax is an all-natural yeast culture product containing Refined Functional Carbohydrates such as MOS and Beta-Glucans that help boost the animal's immune system and protect the gut from pathogens.

Dose: 1-3g per calf per day

Pack sizes: 1kg

## ELECTRO-G ELECTROLYTE

For use as a supportive treatment option for sick, dehydrated or stressed calves. Safe to be fed directly before or after milk as it does not contain sodium bicarbonate.

Pack sizes: 4kg

## PRONTO FOR CALVES

For use as a rehydration treatment or as a preventative pre-hydration treatment. Pronto replaces energy, lost electrolytes and fluids in scouring calves.

Pack sizes: 4kg & 8kg

## BOVELYTE

Designed for sick calves requiring a rapid-acting and high-dose alkalisng electrolyte to counter metabolic acidosis. Bovelyte is exclusively available through Veterinary practices.

Pack sizes: 2kg, 4kg & 10kg

# calf rearing

## NUTRA-KEL

Nutra-Kel is a 35% pure kelp based, seaweed liquid vitamin and mineral supplement. Recommended to be used as an oral tonic for calves, which are off their milk, sick, dehydrated or stressed.

**Dose: 10ml via oral syringe (+ 5g BioBoost probiotic paste for best results)**

**Pack sizes: 5L**

## CALF KLENZ

Calf Klenz is an ideal liquid alkaline detergent for washing calf trailers, calf buckets and calf teat feeders.

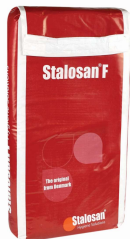

**Pack sizes: 5L**

## GERMIDET 480

Germidet is a non-irritant, powerful, biodegradable germicidal detergent and general disinfectant to be used around the farm or house for cleaning, sterilising, disinfecting and as a general antiseptic.

**Pack sizes: 5L, 20L**

## STALOSAN-F

Powerful organic powder for sanitising and drying bedding, with a low natural pH (below 4) that binds more than 70% ammonia and destroys/controls pathogens.

**Pack sizes: 15kg**

## VIRAL FX (Virkon S alternative)

ViralFX is one of the most advanced antibacterial, antiviral livestock farm / animal disinfectants. It is an oxygen based disinfectant, containing simple inorganic salts and organic acids which decompose into harmless metabolites. Its formula is 99.9% identical to Virkon S.

**Pack sizes: 1kg, 2kg, 5kg, 10kg**

## SUPERIOR WOOD SHAVINGS BALE

Superior Shavings Pine Wood Shavings are a natural product for use as a bedding litter. The shavings are kiln dried pine that are untreated, non-toxic and has a very high absorbency rate. They have been specially screened to remove harmful fine dusts and reduce the incidence of respiratory disease in animals.

**Pack sizes: Sold per pallet (48 bags)**

# calf rearing

## TRISOLFEN

Tri-Solfen pain relief is a local anaesthetic and antiseptic gel spray that adheres to wounds and acts to numb the wound with a long-lasting analgesic effect. Ideal for use at dehorning or castration to provide industry standard welfare.

**Pack sizes: 1L**

## BAYCOX PIGLET AND CATTLE

Baycox Cattle is for the treatment and prevention of coccidiosis in cattle up to 9 months caused by *Eimeria bovis* or *Eimeria zuernii*.

**Dose: 3ml per 10kg single oral treatment 1 week before expected onset**

**Pack sizes: 1L**

## COXI-STOP 50 PIGLET AND CATTLE

Coxi-Stop 50 is a direct alternative to Baycox. For the control of coccidiosis in cattle up to 9 months of age caused by *Eimeria bovis* or *Eimeria zuernii*.

**Dose: 3ml per 10kg single oral treatment 1 week before expected onset**

**Pack sizes: 1L**

## BOVASOL PLUS 10L

A Liquid supplement to support gut health, immunity and growth rates while reducing the likelihood of scours. Contains Bovatec to provide coccidial protection plus additional vitamins and minerals.

**Dose: 25ml per calf per day**

**Pack sizes: 10L**

## SCOURSHIELD

Ultravac Scourshield is for the vaccination of cows as an aid in the prevention of calf scours caused by *E. coli*, Rotavirus or Coronavirus. Calf immunity is boosted by timely feeding colostrum from a vaccinated cow.

**Dose: 2ml Injection**

**Pack sizes: 100ml (50 doses)**

## ULTRAVAC 7 in 1 Vaccine

Ultravac 7in1 vaccine is used to prevent Leptospirosis and the major clostridial diseases in cattle.

**Dose: 2.5ml Injection**

**Pack sizes: 100ml (40 doses), 250ml (100 doses)**

## JORVET CALF TUBE FEEDER

A calf drencher that can be used to stomach feed young animals including electrolytes and colostrum. This feeder can hold approx. 1.8L and has a flexible long probe and a flexible collapsible bottle helping ensure that all the liquid is delivered.

## ANTAHI TRUSTI TUBER – STARTER PACK

With a 4L capacity, wide bore lid and easy handle the Trusti Tuber takes stress-free tubing to the next level. The unique design features a stopper and calf size markers, which give an easy guide for tube placement and positioning – based on the calf's weight. Combined with a soft and flexible tube, the stress on the calf and the operator are eased significantly.

## ANTAHI TRUSTI COLOSTRUM BAGS

Trusti Colostrum bags are the perfect solution for easy storing, fast thawing, pasteurisation, and direct feeding of high quality gold colostrum.

**Pack sizes: 10 x 4L bags, Stomach and teat tubes included in starter pack**

## BRIX COLOSTRUM REFRACTOMETER

Measuring colostrum quality with a Brix refractometer is a cheap and easy method to measure levels of colostrum antibodies. It is recommended to only use colostrum that measures 22% or more on the brix scale.

## RAINBOW 6 CALF SCOUR KIT

A simple and accurate cassette style test kit, to identify common scour pathogens in calf manure. Kit tests for a range of pathogens including Rotavirus, Coronavirus, E.coli and Cryptosporidium.

**Pack sizes: Sold as a box of 5 tests**

## WITNESS BOVID 5 TEST

This diagnostic test kits delivers accurate, fast and clear point of care results using Rapid Immuno Migration™ technology. It can identify a range of common calf scour pathogens including Rotavirus, Coronavirus, E.coli and Cryptosporidium.

**Pack sizes: Sold as box of 10 tests or individually**

# calf rearing

## CALFETERIA BLACK RUBBER TEAT

A popular teat for feeding young calves. Made of soft black rubber. It is generally fitted into a 20-21mm diameter drilled hole in any plastic or metal container. Mainly used in gravity fed situations such as a plastic bucket or container and can be used with calfeteria tubing.

**Pack sizes:** Available in a 25pk or individually

## PEACH TEATS 'SCREW IN'

Peach Teats are manufactured and specially developed to meet the needs of calf rearers, ensuring that the teats feel natural and comfortable.

**Colours:** Black or Pink

**Pack sizes:** Available in a 50pk or individually

## EXCAL BIG SOFTY CALF TEAT

The EXCAL Fast-flow tube-delivery teat was the fore-runner of all modern calfeteria teats for group feeding a large numbers of calves. The Big Softy prevents leakages in gravity feeders while still enabling the calf to suckle freely.

**Pack sizes:** Sold as 25pk or individually

## STALLION 5x5 COMPARTMENT FEEDER

With a 25-litre capacity, screw-in Peach Teats and strong hook-over brackets, this is a practical addition to group-feeding with internal individually-moulded sections to make sure every calf reaches its potential.

## CALF TRAILERS AND FEEDERS

We can supply the full range of Daviesway equipment including but not limited to Gravity Feeders, Open Trough Feeders & Tank/mixer/feeders. For a no fuss quote or advice on which product is best for your situation just get in touch and we will look after you the best we can.

## JFC 340 LITRE ATV MILK KART

The JFC Milk Kart is a perfect solution for transporting and dispensing bulk quantities of milk. Its mixing capability also allows it to quickly and easily mix calf milk replacer or fortify whole milk. Using the metered handheld dispenser, you can quickly and easily fill each feeder to the right level. Fitted with 2 corrosion resistant pneumatic wheels and 2 braked swivel castor wheels to deliver superior manoeuvrability and smooth handling.

# Calf Rearing

From Dr Carl...

Calf rearing has got to be one of the most challenging and yet rewarding parts of dairy farming. The difference between success and frustration can be such a knives edge with everything from weather, housing, diet, management protocols and disease challenges all able to make a big difference to the final outcome. Consistency and excellence in everything you do can pay big dividends to calf health, growth and future productivity.

It has been shown that just the amount of colostrum a calf receives in the first 24hrs from birth can have life-time and even generational consequences to productivity. That blows my mind really.

In order to help make things as easy as possible for you to achieve good outcomes we have put together an extensive range of high quality products commonly used in calf rearing on Australian Dairy farms. We do our best to keep these products in stock and ready to supply when you need. If you want advice about calf management or what products will work best for you don't hesitate to get in touch and we will do our best to help you.
