SHOOF Nitrile Milking Gloves 100pk

SHOOF nitrile milking gloves are strong, good quality powder-free gloves. Milking gloves are now commonplace in dairies to help prevent cross infection of mastitis and cracked hands. 240mm long and 4.5mil thick (0.09mm).

Sizes: S, M, L, XL

SHOOF Leg and Tail Tape 25m

SHOOF Leg and Tail tape is a polyethene-coated water-proof cloth-backed tape. It is easy to rip, will not shrink, and will stay on the leg or tail for up to three weeks. Tape is 48mm wide. Available in five different colours.

Colours: Red, Blue, Green, Orange and Yellow

SHOOF Velcro Leg Bands 10pk

Reusable and easy to clean hook and loop nylon leg bands. Wrap around & press together for quick ID. May be written on with standard marker. Easy to clean and completely re-usable.

Colours: Red, Blue, Green, Pink, Orange and Yellow

FIL Tell Tail Paint 500ml

FIL Paint aerosols can be used as tail paint or for general purpose. Colours are fluoro, highly visible and will last up to 4 weeks, even in wet weather. The can empties its full contents & will do 40-50 avg tail marks.

Colours: Red, Blue, Green, Pink, Orange and Yellow

Cleantec Tail Paint 500ml

Cleantec is our economical Tail Paint option. A weather resistant cattle marker for the beef and dairy industry. Colours are less vibrant than FIL but still provide bright, easy to see colours for identification in all weather conditions. Suitable for both heat detection and identification.

Colours: Red, Blue, Green, Pink, Orange and Yellow

Deri-Sal

An ointment for cracked and sore teats and general skin conditions or infections in Cattle. For skin irritations, sores and wounds, wash and dry the affected areas and apply once or twice daily.

Sizes: 500g and 2Kg

Breeding

Estrotect Heat Detectors

Estrotect heat detectors take the guesswork out of breeding protocols and provide a simple and easy way to tell when a cow is on heat. Just peel it off the backing paper and stick it on the cow.

Colours: Red Orange, Other colours available by request

Kamar Heat Detectors Farm Pack 100's

Effective cattle breeding programs include good heat detection. Kamar heat detectors have a built-in timing chamber which eliminates false heats. The farm pack is supplied with a tube of glue.

Sizes: 100pk. Glue also available individually

LIC Heat Patch Plus 50pk

The LIC heat patch has a pressure sensitive colour chamber similar to the Kamar but is a peel and stick solution like the Estrotect stickers and so eliminates the need to use sticky glue.

Colours: Red, Other Colours available by request

Obstetrical Lube 5L

We have available both Vetsense and Troy branded lube which are both high quality, clear and smooth, antiseptic lubricants used for obstetrical manipulation and rectal examinations.

Size: 5L

AI Gloves Supersensitive 100s

Full arm length gloves for veterinary examination and artificial insemination. Made of special plastic to maintain tactile sensitivity.

Quantity: 100 gloves

AI Sheaths 50pk – Universal or Lateral

Universal Sheaths are suitable to use & provide a tight fit with all types of semen straws. The Alpha AI Unsplit Sheaths have 2 lateral holes to provide an even spread of semen regardless of positioning and a solid rounded tip for easy insertion and making it less likely to carry foreign material into the cervix. Alpha sheaths do not fit all unsplit sheath guns.

Metabolic

Metaject 4 in 1 (MinBal, Minject, Flopak alternative)

A combination liquid injection for the prevention and treatment of milk fever and grass tetany. In addition to calcium, it contains dextrose to assist with complications from Ketosis as well as magnesium and phosphorus which can also be limiting in cases of milk fever.

Sizes: Available in single 500ml pouches or boxes of 15

Metaject CBG (Double Cal alternative)

Metaject CBG is a high concentration calcium only injection for treatment of milk fever. Packed in a convenient 500ml infusion bag, Metaject CBG is ready to go with a draw-off tube and needle supplied.

Sizes: Available in single 500ml pouches or boxes of 15

Proviso Boosti-Cal Oral Gel

Oral calcium, magnesium and organic trace mineral gel supplement for cattle and sheep. A supplement for improved recovery and increased protection against milk fever and grass tetany.

Sizes: 500ml, 5L, 20L

K-Dex Energy Supplement

K-Dex Energy supplement is a highly available energy source for cattle. Useful for sick or freshly calved cows for prevention or treatment of Ketosis. K-Dex Energy can be drenched or used on feed.

Size: 5L, 20L

Keta-go

Keta-go is a premium fresh cow drench, focussing on energy and liver performance – the cornerstones of metabolic health. This supplement includes valuable glucose, appetite stimulants and other beneficial nutrients.

Sizes: 5L, 20L

Multimin Injection for Cattle 500ml

Multimin Evolution injection is a rapidly and well absorbed injectable source of copper, selenium, zinc, and manganese. Promotes cattle fertility and immunity. Contains 90 mg/mL of trace minerals. Trace mineral top up for high demand periods (calving, joining, weaning).

Pack sizes: 500ml
