

The Real Estate Classified

open daily to buyers and tenants
since 2012

Real Estate

NETWORK

Real Estate Marketing
Using Facebook

The following pages include a couple hundred Facebook real estate groups where a For Sale by Owner can advertise their property for sale. Daily posting into these groups will increase your property's exposure to buyers who are members of these groups.

If time is an issue or you do not use Facebook, we are an advertising agency who have been helping For Sale and For Rent by Owners since 2012.

Visit www.fsbohd.com or call the office 7 days a week at 732-952-5650.

ABOUT FOR SALE BY OWNER HELP DESK

The for sale by owner help desk (FSBOHD) was created by real estate and mortgage experts who have the desire to help For Sale By Owners sell their property on their own.

Our help desk services are essential to any For Sale By Owner. For example, one of the most important rules in real estate sales is to be certain interested buyers are pre-approved/pre-qualified before letting them into your home.

- Through our help desk all buyers must provide proof of pre-approval/pre-qualification before being able to see a property.

Also, it is a common practice for real estate agents to bombard For Sale By Owners with solicitations. We have an option that can eliminate solicitations from real estate agents!

Property promotion is another vital part of success if anyone wants to sell a property without a real estate agent. Our help desk designs real estate property ads that are promoted to buyers through a vast network of real estate groups and pages throughout Facebook, Instagram, and Craigslist.

Our work will increase your odds of selling without paying thousands on a real estate commission!
