

# *R&S OFFSHORE RACING*

## **Prostock V #19**

Howard Richardson Owner-Driver of R&S Offshore Racing. Howard was born and raised in South Jersey and lives in Franklinville with his wife Marie. Driver of the ProStock V and the Renegade Kenworth Totor getting the race boat to all our sites. He's also drives a lowboy trailer with heavy equipment and oversize loads for Mike Beeler Equipment Services. Howard has had a addiction to speed most of his life. From 2 wheels competing in AMA motocross and other motorcycles. Drag race his Harley down a 1/4 track at Atco Raceway, NJ then on to four wheels with his GT Ford Mustang and corvette's.

Offshore Racing came about when paths crossed on the Egg Harbor River. Running a 35' Cafe Racer out to Somer's Point and to AC during boating season in NJ on the weekends. The F2-97 needed a driver for the NY SBI event for TMS. It was in 2001 that Howard wanted his own team and R&S Racing came about with Jack Stoerrle. In 2002 the F2-19 had many podium finishes.

2019 ProStock V class started a new chapter and dialing it in with Kyle Dietzen the first half of the season. After Sarasota we were 3rd in the points. Changes needed to be made for this very competitive class and the second half Johnny Stanch got in the cockpit. Then Covid 19 came and stopped the racing but not the work on the race boat. Looking forward to the 2021 season and fierce competition in our class.
