Tow Vehicle: 30' Kenworth Renegade Totorhome with Sirius-Xm Radio

THE TEAM:

Howard and Johnny team up again to race in 2021 ProStock V class with the 32' Badboy Canopy. They each have been know to racing over 20 years. They started racing together in 2019 in the P1/OPA APBA Championship Series. 2020 season was cancelled due to COVID-19 . The season 2021 was once again more R&D for the Bad Boy and more seat time together in the cockpit. Always just one place shy of the podium for a very competitive class. Our worst finished was in Michigan City down on power so more work to be done, more weight to lose and better handling needed. With focus on the World's no other races were attended. Boat was somewhat lighter and handling better. While competing at Key West UIM Worlds Championship in November R&S missed 3rd place by one point after combined points for 3 races ending on Sunday.

The R&S Racing team started in 2001 has traveled to events all over the United States. From east to west coast. Including the Great Lakes to Key West. Racing organizations know as APBA, OPBRA, GLSCS, SBI, POPRA, OPA and OSS. Support from many sources helps their racing efforts. Special thanks goes to our most loyal sponsor MIKE BEELER EQUIPMENT SERVICE, INC. Jim's Lettering & Grapix, Mike Naimoli Marine Specialties, Racing Performance Ministries, Boat US, B Blades.

And into 2021 season support from BlackDog Propellers, BK Sheet Metal, Billy G Canvas. Diamond Marine Performance & Phoenix Metals and Recycling. And Alspach Landscaping LLC for the World's Championship's
