Little wonder we've grown to become the **largest swimming pool and spa company in Australia.**

STEP BY STEP to building your dream pool.

STEP 1.

Choose your pool or spa from our huge selection of award winning designs.

STEP 2.

Have a chat with your consultant about your finishing options. This is the time to discuss landscaping and fencing, and whether you require pool heating.

STEP 3.

Your pool is pegged out so you get to see exactly where it will be located. Then our excavation crew carefully digs a hole to the correct shape and depth.

STEP 4.

The base is screeded so that your pool sits perfectly level. A final check and your pool is ready to go in.

STEP 5.

The pool arrives and it is carefully lifted into place ensuring a perfect position is achieved.

STEP 6.

Once the pool is placed in the ground and the levels are checked, back fill is commenced and then the pool is ready for the connection of all equipment.

STEP 7.

Now it's time to enjoy your new pool.

YOUR NEW FREEDOM POOL
