## WHY FLOWCAM NANO CHANGES EVERYTHING

*Image Every Particle.*
*Characterize the Entire Population.*

- Real image of every counted particle
- Native hydrated state
- Label-free analysis
- Population-scale statistics
- Distinguishes exosomes from contaminants
- Detects aggregates before they become a problem
- Ideal for batch release, stability studies and quality control

IF YOU DO NOT SEE **FLOWCAM NANO** ON THE CERTIFICATE OF ANALYSIS... *SAY No.*
