

Provider Consent Form

With an office that includes 3 licensed electrologists, our goal is to always make our clients comfortable and feel safe. With that being said, some people have preferences for different reasons. That may be due to religious beliefs, previous bad experiences before coming to our office, or would just prefer a male or a female working on them. PLEASE be honest when answering below, because we will go by this form. No questions asked no matter how you fill it out.

When one of us either gets sick, needs to go out of town, or so that we can do our best at helping as many as possible throughout our day, we may need to switch providers on you. ONLY if you are fine with that. If you only choose one provider, we will call to reschedule. If you choose more than one provider then you will have a better chance at staying on your plan.

We have ALL been trained at the best school in the country, by the same people. Just like every electrologist, we are all different in our own way. We all have our strengths and our love of different areas to treat. So depending on what area you are wanting done, may even depend on who treats you the most. For those wanting to take advantage of the Timesaver, they will need to have at least two providers checked, if not all three.

Please be honest and check each one that you would feel comfortable working on you. We will refer to this page when needing to switch providers, even at the last minute. Thank you for being honest so we can be sure you are happy.

I am also aware that if I cancel my appointment within 24 hours of the appointment I will pay 50% of the cost of the appointment due to it being hard to fill at that time.
