

Open letter to the Stakeholders and Residents of Boerne ISD

My name is Cody Mueller and it has come to my attention there is a question if David Spencer was involved in financial improprieties at Comal ISD while he was on our board.

Nothing could be further from the truth.

I am the current Board President at Comal and served on the school Board with Mr. Spencer beginning in May of 2013. At that time, the School Board was in the middle of investigating the former Superintendent and Associate Superintendent. While I can't reveal full details as the investigation remains open and is awaiting trial, the record is clear.

Following a deep investigation, the former Superintendent and his Associate Superintendent were both indicted and arrested for multiple counts of felony theft and misappropriation.

The person who first came out of the community, asked tough questions, was stonewalled and ultimately ran for the board specifically to stop the superintendent, end the stealing and uncover the truth was David Spencer.

Public service demands transparency, honesty, and integrity.

David Spencer stood up for those values during his service here and will do the same for Boerne.

If you want to steal from the schools, you certainly don't want David Spencer on your board.

I encourage you to find out the facts.

Thanks,

A handwritten signature in dark ink, appearing to read 'Cody Mueller', with a long, sweeping horizontal line extending to the right.
