

## **Chad A. Martin, CWB, PWS**

Chad is a DIPS Senior instructor with 21 years of Wetland Delineation and Section 404 Permitting experience. He began his career directly out of college working for engineering/consulting firms conducting wetland delineation, threatened and endangered species surveys, and preparing permit applications to the U.S. Army Corps of Engineers under Section 404 of The Clean Water Act. Mr. Martin was a founder and acting Secretary of the Central Texas Chapter of the National Association of Environmental Professionals (NAEP) and is currently a Principal and Technical Director for a world-wide environmental consulting firm. Mr. Martin is the national leader for renewable resources and manages several offices in Texas and Nevada.

Mr. Martin is a certified Professional Wetland Scientist by the Society of Wetlands Scientists. He has given presentations and seminars at trade shows and professional conferences on the subject of wetland delineation and Section 404 permitting. Mr. Martin has permitted projects in 32 states across the nation and include oil and gas pipelines, gas and bio-fuel power plants, commercial wind and solar projects, port/maritime projects, residential and commercial development, state roads and highways, mining projects, and federal military projects.

Mr. Martin has a BS and MS degrees in Biology with a minor in Fish and Wildlife Management from Stephen F. Austin State University, Texas.
