

Where Good Stewards Meet Their Environment

National Environmental Policy Act (NEPA) Process and Documents

Participants in this course will learn the procedural requirements and implementation process with hands-on practical exercises for completing a NEPA document. Our NEPA training content is also available specific to DOTs, DODs, and Homeland Security organizational guidelines.

Objectives

- Integrate the legal requirements of NEPA into well-designed EAs and EISs
- Understand how to write high-quality CEs, EAs, EISs, FONSI, and NOIs
- Improve planning and decision making
- Understand the NEPA and CEQ Regulations and fundamental principles, and the relationship of the analysis process to the document
- Develop alternatives and discover how to develop a reasonable range of alternatives

Audience

- Federal, State, and Local agency environmental officials
- Environmental and Engineering Consultants
- Developers
- Oil & Gas Environmental Professionals
- State and Local Transportation Officials
- Private Sector Stakeholders

Components

- Understand the Role of an Agency Decision Maker in the NEPA Process
- Learn the purpose of NEPA and the Policy and Procedures Required by the Act
- Preparing Legally Defensible Environmental Documents
- Learn the Differences Between CEs, EAs, and EISs and the Appropriate Format and Required Documentation
- Learn About the Public Involvement process and why it's Important
