

## **Paul E. Williams, PE**

Paul is a DIPS Senior Instructor with over 32 years of civil engineering experience in the transportation industry. He began his engineering career in 1987 as an Engineer-In-Training (EIT) in the Dallas District of the Texas Department of Transportation (TxDOT). Paul amassed a 26-year career with TxDOT, retiring in 2013. During his career he accumulated technical and managerial experience in the design, construction, maintenance, and administration of TxDOT roadway projects. He gained considerable knowledge of the NEPA process from a State DOT perspective, as he was required to engage in formulating Environmental Assessments and Categorical Exclusions, based on NEPA guidelines, during the PS&E development of many roadway design and construction projects.

Mr. Williams is presently co-owner of Priority Group, Inc., a civil engineering firm specializing PS&E development, Construction management and inspection, and Quality Assurance/Quality Control. He has BS degree in Civil Engineering from the University of Oklahoma.
