

Where Good Stewards Meet Their Environment

Policy / Permits / Mitigation

DIPS 32-hour USACE Wetland and Regulatory Policy course will provide the student necessary knowledge required to navigate the permit process with minimum resources. The course will acquaint the student with each coordinating federal regulatory agency and the agency responsibilities relative to Section 404 of the CWA.

Objectives

- Obtain knowledge required to obtain USACE permit(s)
- Learn the various types of permits encountered and required during project initiation
- Review complex permit cases and how to apply that knowledge to common complex permit cases

Audience

- Federal, State, and Local agency environmental officials
- Environmental and Engineering Consultants
- Developers
- Oil & Gas Environmental Professionals
- State and Local Transportation Officials
- Private Sector Stakeholders

Components

- NEPA
- General, Nationwide, and Individual Permits
- Mitigation
- Alternatives Analysis
- Case Law (Geographic Jurisdiction, Regulated Actives etc.)
- Legal Review
- CWA Section 404(b)(1)
