

Fluid GF™ Pricing

Q-Code: Q4206

BioLab Fluid GF™ is an amniotic liquid allograft derived from the amniotic fluid within the amniotic sac used to protect, lubricate and cushion. BioLab Fluid GF™ is solely composed of amniotic fluid and does not contain any lyophilized or micronized membrane.

The donor has been assessed for high risk behavior and relevant diseases, the donated tissue has been deemed acceptable for transplant in accordance with strict industry standards. All BioLab Sciences amniotic liquid allograft has been tested for potentially infectious diseases and terminally sterilized to ensure the safety of each liquid allograft.
