

Membrane Wrap™ Pricing

Q-Code: Q4205

BioLab Membrane Wrap™ is a dehydrated human amnion membrane (dHAM) allograft composed primarily of a connective tissue matrix. It is minimally manipulated, preserving many of the natural growth factors and cytokines that are abundantly present in amniotic tissue. The presence of the connective tissue matrix and associated factors help to regenerate soft while inhibiting inflammation and scar tissue formation.

The donor tissue is recovered and processed aseptically in full accordance with all industry standard. All BioLab Sciences Membrane Wrap™ allograft tissue products have been tested for potentially infectious diseases and terminally sterilized to ensure the safety of each membrane.

Membrane Wrap™ Allograft (cm)	List Price
2x2	\$1,580
2x3	\$2,370
4x4	\$6,320
4x6	\$9,480
4x8	\$12,640
