transparency.

Robo-RebateSM is the Ventegra® proprietary pharmaceutical rebate management application and service tool demonstrating Ventegra's commitment to true transparency. With true transparency, all rebates and incentives are fully disclosed and accessible to both our clients and our contracted pharmaceutical manufacturers. With Robo-Rebate, what you see is what you get.

Robo-Rebate is the brainchild of a team of industry experts that applied their collective 85-plus years of results-driven experience to designing a tool that truly answers the needs of clients, both manufacturers and payors, for an efficient, accurate and nimble automated approach to processing and managing rebates.

- Accuracy and integrity in executing agreements, including contract eligibility, market share, contract price, overall calculation, and more.
- Timely submissions resulting in prompt disbursements to our clients.
- No money is left on the table with reconciliation reports at the claim level offering full transparency.
- Continuous evaluations of therapeutic, clinical, and economic value to best serve the needs of clients and their members.
- Variety of manufacturer contract solutions, including direct purchase pricing, commercial, Managed Medicaid, Medicare, and at-risk medical groups.
- Rebates for pharmaceuticals covered by pharmacy or medical benefits, including infusions such as biologics, diabetic supplies, and MS agents.
- Monthly reconciliation with detailed reporting and payments paid out monthly as rebates are received.
