DPW/Wastewater

President Fish reported that the weeds are under control at the lagoons. He has been replacing arrows and street signs around the village as needed. The crew started working on the new roof at the hall today and they should be finished within the week. They have to replace three rafters since they were split. It appears something heavy fell on the roof at one point.

Guest Speakers

Representatives from the No Cost Market were in attendance to inform the council of their plans for the former Community Christian Fellowship Church. They are a 501 3C non-profit that provides food and produce to residents in need. They would like to use the building to provide job search, interview skills, resume building, and used furniture to community members in need.

Representatives from JBB Cultivating were in attendance to address concerns with their business at 295 Root Street. They are proposing to buy the land for \$100,000 from the Village. They cited cash flow concerns, decline in sales, increased number of permits granted by the State of Michigan, and the increase in taxes as concerns for them sustaining the current lease for long term.

Old Business

President Fish discussed the purchase of a second furnace for the hall; he will get some estimates for the next meeting. President Fish said one furnace does not heat the hall and we need a new second one before winter so the pipes don't freeze.
