The integrated business communications platform you expect, with the service, price and business phone functionality that sets us apart.

All-in-One
Voice, video, chat, file sharing, and more all on one platform

More Phone Features
Over 90+ enterprise-grade business phone system features included

Savings & Support
Better reliability, superior support, all for less

Elevate is the all-in-one cloud communications and collaboration platform that powers the way businesses connect and work. Like Microsoft Teams, Elevate is voice, video conferencing, chat, file management, and more all in one integrated solution. Only Elevate provides essential phone features like, 90-day call recording, advanced call routing, and contact centre that help businesses become more responsive and efficient. Plus, Elevate is highly secure and reliable, and comes with local support from easy-to-reach experts. With Elevate, you get more – for less.
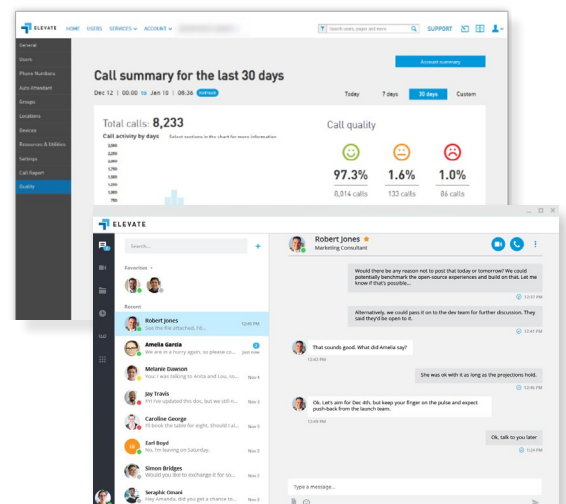

ELEVATE IS YOUR COLLABORATION HUB
Phone, private and public chat channels, file sharing with backup, and video conferencing ensure users connect and collaborate how they want, wherever they are.

ELEVATE IS YOUR ADVANCED BUSINESS PHONE SYSTEM
90+ features, 90-day call recording, advanced call routing and analytics, and contact centre all available through desktop phones, smartphones, laptops and tablets – built for iOS and Android-enabled devices.

ELEVATE COMES WITH A FREE DESK PHONE & UNLIMITED DOMESTIC CALLING
Control costs with pre-configured plug and play phones, as well as unlimited calling minutes, for each user.
