

JPA Office Update.

JPA face-to-face appointments

We at JPA are delighted to announce we are in a position to begin the rollback of some of our restrictions commencing the first week of June. Yes, it's hard to believe it is almost June!

It has been vital for us to operate under a strict safety code to keep you, our valued clients, as well as our team and their families, as safe as we can with the very least amount of risk as possible.

With some strict guidelines in place, we will commence taking limited face-to-face appointments to enable those who need personal discussions, the opportunity to do so.

Guidelines for these in-person meetings will include a restriction on the number of clients in the office at one time and hygiene best practice, including the use of hand sanitiser. These appointments will be managed by Karen and the team.

Phone and zoom appointments are still freely available and in fact, may very well be the preference for some.

The dropbox facility can be continued to be utilised by all departments including Accounting, NDIS & Financial Planning. The dropbox is located to the right of our front door which will remain closed for now.

We sincerely appreciate the understanding and assistance to keep us operating during this challenging time and look forward to resuming our friendly welcoming open-door policy as soon as the Government Medical advice says it is safe for us to do so.

Warmest regards,
The JPA team.
