CHARLOTTE COUNTY SOCCER FEDERATION

Dear Parents/Guardians/Players/Coaches/Sponsors:

As President of Charlotte County Soccer Federation I would like to take this opportunity to thank you for your interest in our ever growing soccer club. Our goal is to provide the children of SW Florida the best possible training, sportsmanship and knowledge for the game of soccer. We also teach the youth of our area positive lessons in an encouraging environment. These lessons they can apply now and later in other aspects of their lives.

We have gone to great lengths to put in place many opportunities for the children and the parents to get involved in our club. We provide classes for potential referees, clinics & training for potential coaches as well as Brazilian Soccer camps for the children. We want the children and the parents from our community to get involved in every portion of the club, because together we will keep Charlotte County Soccer Federation successful in the future. We are an all volunteer organization and are grateful for the many coaches, parents, directors that give countless hours to our club. This year we have over 750 kids in our programs and have added several new professional trainers to assist in player & coach development.

We have been very busy in the off season getting our club prepared for the future. The club also has obtained some of the areas high school coaches to work with our Recreational & Competitive kids to further advance their training. The County Parks & Rec has been hard at work replacing field surfaces, parking lot lighting and painting all the buildings. We hosted 2 Region C Cup tournaments in February that drew teams from all over the SW FL region and they were a big success and brought much needed revenue to our local businesses. All of our travel teams competed in the Sarasota Cup Tournament in March. Tampa Bay Rowdies has partnered up with our club and is offering discounted tickets and CCSF Day where our club walks out onto the field during the opening ceremonies. FC Porto International has also partnered with our club and will be offering European style teachings in the near future.

Our club is dedicated to seeing that Charlotte County Soccer Federation becomes one of the most successful soccer organizations in the Region. Together we can ensure that our children have all the opportunities that a soccer club can provide, but most importantly their experience with us will be one that they will always remember.

Please visit our website for all the latest information. www.ccsfsoccer.com

Sincerely,

Erick Toth / CCSF President

Or
Place your trash in a trashcan.

Coach Responsibilities and Rules

1. Coaches must provide to the referee a **TEAM ROSTER**, valid player and coach identification prior to the start of each game. A valid roster from the registrar will be that verification.
2. Coaches should make every effort to ensure each player plays a **minimum** of half of each game. (See **Miscellaneous Federation Rules J. Player Participation**)
3. We suggest you review the **Parents Code of Ethics** with your parents and emphasize the positive attitudes we want to display for the benefit of our players. Parents are encouraged to cheer for their teams, but using vulgar/insulting language and jeering at other players, coaches, and the referees is not acceptable. CCSF officials may have parents removed for violating any part of this code.
4. Please ensure that **your team technical area is cleaned-up after the game prior** to you is leaving the field. We should take enough pride in our teams and our club to clean up after ourselves.
5. Incident reports are to be used to report all problems. The federation can only deal with issues if they are presented in writing. They may be filled out online on our website, or downloaded and mailed to our P.O. Box or turned in at our concession stand. At games incident reports can be obtained from the Field marshal, Coaches and at our Concession Stand.
6. Please, review your **Coaches Code of Conduct** and **Code of Ethics**. We will not tolerate coaches teaching or encouraging players to play rough to the point of injurious play. We are supposed to be setting a good example to our players, teaching them fair play and wanting them to have fun.
7. U5 players that are on the field should be directly involved in the game and there should not be any player guarding the goal.
8. U5 and U7 will not keep any score, but U9 and up will keep standings. Coaches should refrain from emphasizing goals scored during a game, rather elaborate on overall player performance. This includes excessive scoring opportunities, if a score does get lopsided please use the respect of moving players around or enforcing 2 or 3 passes before scoring to help with fair play, nobody likes to lose 10-0.
9. **If a coach plays a player who is under suspension, that player will not be allowed to play for the remainder of the season and the head coach will be removed from coaching at a minimum of; the rest of the season.**
10. Coaches are responsible for informing their spectators to move to the designed spectator area in order to watch the game. If a coach is unable to control a spectator then that spectator may be removed from the park by federation officers, or the field marshal, lastly through the use of law-enforcement personnel if necessary.
11. Coaches should contact division coordinators with any questions they may have. This includes questions about uniforms, trophies, and plaques. Please do not contact vendors directly. They cannot produce our work if they are busy dealing with coaches. We have Board Members set up to handle all functions of the federation and the committee heads are the only ones with the authority to deal with our vendors. Also, please provide your division coordinator with requested information and items (logos, uniform sizes, etc.) in a timely manner. This will facilitate smooth running of the federation functions. Your coordinator will need to know your team name, sponsor, and practice location as soon

as you have that information.

12. Any roster changes need to be accomplished through your coordinator, one week after you have received your roster. The change must be approved by the registrar and a new roster signed by the Registrar before any new player can participate. No refunds after uniforms are ordered.

13. **Some of our teams may be short the maximum number of players during the season. In the spirit of fair play, when possible, please match the number of players the other team has fielded (playing down) if the other team has fewer than the maximum. Note: *While you do not have to play down to your opponent's strength if it would prevent any of your players from playing half a game, you should match it as close as possible.***

14. As a sign of good sportsmanship immediately following the game, both teams shall congratulate each other for a game well played by lining up and shaking hands of their opponent. **Any coach or player that does not do this will be suspended for the next scheduled game unless that coach or player is injured. It is strongly recommended that when a player is injured all players should take a knee to show good sportsmanship.**

15. **Goals must be anchored at practices and on game day (otherwise no play).** Teams that come to play first on game day **must ensure that your field is set-up with goals, anchors and flags before game starts.** Last Teams that play **must move goals, benches, sandbags off of the field to sideline in the common area after their game.**

CCSF Lightning & Inclement Weather Policy

Lightning strikes are a difficult thing to predict, below is a National & State standard for youth sports in the event of severe weather that is used in the absence of electrical detection systems, recently there are some apps that are pretty good (SPARKS from Weatherbug has been pretty successful).

In the event of lightning, the guidelines below will be followed during **Charlotte County Soccer Federation sanctioned events:**

Suspension and Resumption of Activity

Outdoor activity must be suspended when lightning is a maximum of **10 miles away**. The "30/30 Rule" should be followed when evaluating lightning danger: if lightning is 30 seconds away, it is too close, and do not resume play for **30 minutes** from the last seen flash or last heard thunder. Please use South County Park siren system, North county use phone apps.

Suspension

For suspension, follow the 30 second "flash-to-bang" rule. The "flash-to-bang" method is the easiest and most convenient means for determining distance to the lightning flash, which is integral to assessing the need to postpone or suspend an activity:

Lightning should be monitored with the first flash of lightning or clap of thunder, no matter how far away the storm is. It is critical to monitor how far away the lightning is occurring and how fast the storm is approaching, relative to the distance of a safe shelter.

In the event that play is suspended, all individuals, including athletes, coaches, referees, and spectators, **should immediately go indoors or to their cars to wait for the storm to pass.** If unable to reach safe shelter, stay away from the tallest trees or objects (such as light poles or flag poles), metal objects (such as fences or bleachers), individual trees, standing pools of water, and open fields.

Resumption

For resumption follow the 30-minute rule: Play should not be resumed until 30 minutes have passed since the last flash of lightning or clap of thunder within 10miles..

Chain of Command

The team coaches are responsible for ensuring that their players are safe during the storm. If lightning occurs during a practice or a clinic, the team coaches and/or the technical staff coaches are responsible for monitoring weather conditions. The coaches are responsible for ensuring that all players are safe during the storm.
