Hello, am Phillipa Donnie Acquah from Ghana(West Africa).Am a nursing student in my final year at Presbyterian Nursing and Midwifery Training College at Dormaa Ahenkro-Brong Ahafo Region -Ghana.

Nursing has been a tough challenge for me as a young lady.Meanwhile, it has enlightened me a lot especially in the health field.From my first to my sixth semester,it hasn't been easy but by God's grace and am much grateful to him.A time came when I got discouraged about how am going to cope with the challenges and difficulties in learning.Lo and behold I met The Nurses Pub which has been the inspirational of my life and the nursing career as a whole.

The Nurses Pub introduced a book "Surviving the journey as painlessly as possible"(from student to nurse).This book helped me to get back on my toes to concentrate much on the nursing journey and now am on the verge of completing the nursing college.

How i wish I have known the Nurses Pub earlier because it has brought a great impact in my nursing career.

Thank You Nurse Mona.
Long Live Nurses Pub.
